

FALKIRK COUNCIL

Subject: DEMOLITION OF EXISTING BUILDINGS AND DEVELOPMENT OF LAND FOR RESIDENTIAL PURPOSES AT CASTINGS COMMUNITY SPORTS & SOCIAL CLUB, ETNA ROAD, FALKIRK, FK2 9EG, FOR MR MARK AGNEW - P/12/0543/PPP

Meeting: PLANNING COMMITTEE

Date: 25 June 2013

Author: DIRECTOR OF DEVELOPMENT SERVICES

Local Members: Ward - Falkirk North

Provost Pat Reid
Councillor David Alexander
Councillor Dr C R Martin
Councillor Cecil Meiklejohn

Community Council: Grahamston, Middlefield and Westfield

Case Officer: John Milne (Senior Planning Officer), Ext. 4815

1. DESCRIPTION OF PROPOSAL / SITE LOCATION

- 1.1 The application site comprise an area of land formerly utilised for a social club, bowling green, tennis courts and pavilion facilities.
- 1.2 The site is some 0.67 hectares in size and is located at the corner of Etna Road / Kinnard Street, Falkirk. With Etna Road to the north, the site is predominantly bounded to the west, south and east by housing.
- 1.3 The site is currently unoccupied and the bowling and tennis grounds unmaintained. The applicant contends that these sporting facilities have been permanently lost.

2. REASON FOR COMMITTEE CONSIDERATION

- 2.1 The application is considered potentially contrary to Development Plan policy regarding the loss of Open Space and Play Provision.

3. SITE HISTORY

- 3.1 P/11/0680/PPP - Demolition of Existing Buildings and Development of Land for Residential Purposes - withdrawn 20 March 2012.

- 3.2 F/99/0022 – Display of Illuminated Advertisements – Refused 1 February 2000.
- 3.3 F/2004/0271 - Erection and Renewal of Fencing and Sitting Area - Granted 19 April 2004.
- 3.4 06/1191/FUL - Erection of Smoking Shelter - Granted 5 February 2007.
- 3.5 F/91/0500 - External Alterations (Detailed) - Granted 17 June 1991.

4. CONSULTATIONS

- 4.1 Sportscotland have advised that the applicant has been in negotiations with them and a commuted sum of £40,000 has been agreed. The monies would contribute towards the improvement of Dollar Park tennis courts as compensation for the loss of the three blaes tennis courts on the application site. Sportscotland initially objected to the proposal, unless a compensatory figure of £100 - 200,000 was made to allow the complete reinstatement of three courts in the local vicinity. Following discussions with Tennis Scotland, Falkirk Community Trust and reference to the draft Falkirk Pitches Strategy it was agreed that a contribution towards the proposed improvements to the existing tennis courts at Dollar Park would be the best solution to enhance tennis provision locally.

It is sportscotland's opinion that the courts at Castings social club have very limited changing provision, blaes surface courts, dilapidated fencing and no floodlighting. The outline proposals at Dollar Park include improved changing accommodation, surface upgrading and the addition of floodlighting. Overall, considering the scope of these improvements, it was considered that this project should be able to compensate for the loss of the three courts at Castings. The additional hours available through the provision of floodlighting would significantly increase the playing capacity of the site. Access would also be available during the winter months, which would not have been an option for the Castings courts.

In terms of bowling the applicant demonstrated the bowling provision within the local vicinity is more than capable of accommodating members who were displaced by the closure of the Casting Bowling Club. There are other clubs and public greens within the vicinity of the site. The governing body did not raise concerns when contacted about the loss of this green nor suggest that the loss of the greens would be of detriment to the provision locally. There therefore appears to be ample green capacity to cope with demand in the Falkirk area.

Sportscotland advise that, based on the applicant's commitment and the extent of their statutory role in the planning process, it is willing to withdraw its objection to the planning application on the understanding that a legal mechanism is put in place to secure the payment of £40,000 to the Falkirk Community Trust for the improvements to the Dollar Park tennis courts prior to the approval of planning permission.

- 4.2 Falkirk Community Trust agree with sportscotland in relation to the commuted sum of £40,000 in mitigation for the loss of the sports provision.
- 4.3 Scottish Water does not object to the planning application, but any approval of the proposal does not guarantee a connection to Scottish Water Infrastructure.

- 4.4 Falkirk Council's Environmental Health Unit advise that, if the application were to be approved a planning conditions should be imposed requesting a contaminated land assessment. In addition a planning condition should be imposed requesting a scheme for protecting the occupiers of the proposed dwellings from transportation noise.
- 4.5 Falkirk Council's Education Service indicates that development of the site would have limited impact on Victoria Primary School, St Andrew's RC Primary School or Graeme High School. In terms of St Mungo's RC High School, only if the development threshold exceeded 16 units would a commuted payment of £900 per unit be required.
- 4.6 Falkirk Council's Road Development Unit have no objections, in principle, to the development. However, matters regarding site access, design and standard of roadways and footpaths as well as drainage assessment and discharge require to be addressed. Given that the application seeks the principle of development, it is considered appropriate to address these matters through planning conditions.

5. COMMUNITY COUNCIL

- 5.1 Grahamston, Middlefield and Westfield Community Council object to the proposals, considering that the Castings Social Club is a valuable local amenity.

6. PUBLIC REPRESENTATION

- 6.1 2 representations neither objecting nor supporting the application have been received, commenting:

- Any new housing may have an adverse amenity impact on existing neighbours and the previous facilities seemed to be paying their way. However, if the site were to sit vacant for a number of years, it may attract the wrong kind of attention.

- 6.2 98 representations objecting to the application have been received, commenting:

- This represents a loss of an established local sports and recreation facility, as well as community hub;
- There are plenty of other 'derelict' land parcels suitable for development;
- The proposal is contrary to Scottish Planning Policy 11 'Open Space and Physical Activity';
- The residents of Etna Road and Middlefield are already under provided in terms of access to sports areas, play space and green areas;
- The Falkirk Open Space Strategy survey places the area in a 'Priority Regeneration Area' and developers should be supporting the community not cut the heart from it;
- The land is zoned for leisure, not housing;
- The application is in breach of the Falkirk Council Local Development Plan;
- The application is a breach of the Scottish Governments policies and legislation relating to the protection of sports grounds;
- The application is in breach of Falkirk Council's Leisure Strategy and Corporate Plan.

6.3 A petition containing 38 signatures has also been received objection to the application on the grounds of:

- The application results in a loss of amenity to the local community;
- The land is zoned for leisure, not housing;
- The application is in breach of the Falkirk Council Local Development Plan;
- The application is a breach of the Scottish Governments policies and legislation relating to the protection of sports grounds;
- The application is in breach of Falkirk Council's Leisure Strategy and Corporate Plan.

7. DETAILED APPRAISAL

Under section 25 of the Town and Country Planning (Scotland) Act 1997, as amended, the determination of planning applications for local and major developments shall be made in accordance with the Development Plan unless material considerations indicate otherwise.

Accordingly,

7a The Development Plan

Falkirk Council Structure Plan

7a.1 Policy COM.5 'Developer Contributions' states:

"The Council will ensure that proper provision is made to meet the physical and social infrastructure needs of new development and to mitigate the impact of such development on the locality. Where it is required to make a proposal acceptable in land use planning terms, serve a planning purpose and is directly related to the proposed development, developer funding for on- or off-site works will be sought in respect of:

- (1) environmental enhancement required to mitigate, or compensate for landscape, townscape or ecological impacts;*
- (2) physical infrastructure required to make the development acceptable, particularly transport provision required to ensure that the development meets sustainability criteria;*
- (3) community and recreational facilities required to meet demand generated by the development.*

The required provision will be reasonable and related to the scale and nature of the proposed development, taking into account the relevant Council standards and will be specified within Local Plans and development briefs as appropriate. Examples of the range of matters which developers may be asked to address are provided in Schedule COM.5."

7a.2 In this instance, it is considered appropriate to seek financial mitigation should the recreation use of the site be replaced. Community and recreational facilities require to meet demand generated by development and specifically, the loss of tennis provision within the area requires to be offset.

7a.3 Policy COM.6 ‘Open Space and Recreational Facilities’ states:

“The Council will seek to ensure that a satisfactory distribution and quality of open space and recreational facilities exists across the Council area. Accordingly:

- (1) the loss of open space and recreational facilities will not normally be permitted except where, as part of a community-wide assessment of provision, it is demonstrated that the loss will have no adverse impact on visual or recreational amenity and will release resources for qualitative improvements to facilities in the community as a whole;*
- (2) Local Plans will identify and seek to address any remaining localised deficiencies in provision;*
- (3) resources will generally be concentrated on improving the quality, management and accessibility of existing provision; and*
- (4) all new housing development must contribute to the provision and maintenance of open space and recreational facilities either through on-site provision or contributions to off-site provision. Standards will be set out in Local Plans based on the provision of 2.8ha per 1000 persons.”*

7a.4 In this instance, the recreational facilities are privately owned and, currently, cease to be operated. While not of a strategic impact, the sites loss could be mitigated through a financial contribution towards improvements to off-site provision at Dollar Park.

Falkirk Local Plan

7a.5 Policy SC2 - ‘Windfall Housing Development Within The Urban / Village Limit’ states:

“Housing development within the Urban and Village Limits, in addition to proposals identified within the Local Plan, will be supported where the following criteria are met:

- (1) The site is a brownfield one, or comprises urban open space whose loss can be justified in terms of Policy SC12;*
- (2) The proposed housing use is compatible with neighbouring uses and a satisfactory level of residential amenity can be achieved;*
- (3) The site enjoys good accessibility by public transport, walking and cycling to shopping, recreational and other community facilities;*
- (4) Existing physical infrastructure, such as roads and drainage, and community facilities, such as education and healthcare, have the capacity to accommodate the increase in use associated with the proposed development, or can be upgraded through appropriate developer contributions as required by Policy SC11;*
- (5) In the case of small gap sites and sub-divided plots, Policy SC8 is satisfied; and*
- (6) There is no conflict with any other Local Plan policy or proposal.”*

7a.6 In planning terms, Brownfield Sites are defined as sites that have previously been developed or used for some purpose which has ceased. This excludes, for example, open space and garden ground. In terms of the privately owned bowling green and tennis courts, the use would more normally be defined as being within the Town and Country Planning (Use Classes) (Scotland) Order 1997 Classes 11 - Assembly and Leisure. Subsequently, the site could be considered Brownfield and therefore justified in consideration for development.

7a.7 Policy SC11 - 'Developer Contributions To Community Infrastructure' states:

"Developers will be required to contribute towards the provision, upgrading and maintenance of community and recreational facilities required to meet demand generated from new development. The nature and scale of developer contributions will be determined by the following factors:

- (1) Specific requirements identified against proposals in the Local Plan or in development briefs;*
- (2) In respect of open space, recreational, and education provision, the general requirements set out in Policies SC13 and SC14;*
- (3) In respect of other community facilities, any relevant standards operated by the Council or other public agency; and*
- (4) Where a planning agreement is the intended mechanism for securing contributions, the principles contained in Circular 12/1996."*

"There will be a presumption against the loss of existing community facilities unless the Council is satisfied that there is no longer a need for the facility or an acceptable alternative facility is available."

7a.8 In general terms, the priority for the Local Plan is to ensure that there is no overall diminution in the quality of community provision through development of land use change. Accordingly, this policy generally prohibits the loss of facilities without a clear justification based on need or alternative means of service delivery.

7a.9 However, in this instance, the cessation of use on the site and the advice from sportscotland that the loss can be mitigated through financial contribution influences interpretation of the policy.

7a.10 Policy SC11 - 'Developer Contributions To Community Infrastructure' states:

"Developers will be required to contribute towards the provision, upgrading and maintenance of community and recreational facilities required to meet demand generated from new development. The nature and scale of developer contributions will be determined by the following factors:

- (1) Specific requirements identified against proposals in the Local Plan or in development briefs;*
- (2) In respect of open space, recreational, and education provision, the general requirements set out in Policies SC13 and SC14;*
- (3) In respect of other community facilities, any relevant standards operated by the Council or other public agency; and*
- (4) Where a planning agreement is the intended mechanism for securing contributions, the principles contained in Circular 12/1996."*

7a.11 It is considered appropriate to secure a sum of £40,000 subject to an appropriate legal agreement prior to initiation of development of the site. Given the current economic climate, it is considered reasonable that the landowner be afforded a timescale to secure development commitment prior to payment.

7a.12 Policy SC14 ‘Education and New Housing Development’ states:

“Where there is insufficient capacity within the catchment school to accommodate children from new housing development, developer contributions will be sought in cases where improvements to the school are capable of being carried out and do not prejudice the Council’s education policies. The contribution will be a proportionate one, the basis of which will be set out in the SPG Note on ‘Developer Contributions; Education and New Housing Development’. In cases where the school cannot be improved in a manner consistent with the Council’s education policies, the development will not be permitted.”

7a.13 Through consultation with Falkirk Council's Education Services, no commuted payment towards education is requested unless the site capacity exceeds 16 units.

7a.14 Policy EP18 – ‘Major Hazards’ states:

“Within the Major Hazard and Pipeline Consultation Zones identified on the Proposals Map, proposals will be judged in relation to the following criteria:

- (1) The increase in the number of people exposed to risk in the area, taking into account the advice of the Health and Safety Executive, any local information pertaining to the hazard, and the existing permitted use of the site or buildings;*
- (2) The extent to which the proposal may achieve regeneration benefits, which cannot be secured by any other means. and*
- (3) The potential impact that the proposals may have upon chemical and petrochemical establishments.”*

7a.15 The application site falls within the zone of influence of a major hazard, as identified within the Falkirk Council Local Plan. However, the Gasometer in question was demolished and removed from site a number of years ago. While Falkirk Council is currently pursuing a revocation order to remove this feature from the Health and Safety Executive's library of hazardous installations, the feature should be considered as relevant in assessment terms although the use of PADHI+ inappropriate. Therefore any decision to approve the application should be referred to Scottish Ministers for consideration.

7a.16 Accordingly, the proposal accords with the Development Plan.

7b Material Considerations

7b.1 The material consideration to be assessed are Scottish Planning Policy (May 2010), the policies of the emerging Falkirk Local Development Plan, the points raised through comment and the matters raised through the applicant's submitted supporting statement.

Scottish Planning Policy

7b.2 Scottish Planning policy recognizes that playing fields are an important resource for sport and should be provided in sufficient quantity, quality and accessibility to satisfy current and likely future community demand. Playing fields and sports pitches should not be redeveloped except where specific criteria applies, of which are:

- The playing field which would be lost would be replaced by a new playing field of comparable or greater benefit for sport and in a location which is convenient for its users, or by the upgrading of an existing playing field to provide a better quality facility either within the same site or at another location which is convenient for its users and which maintains or improves the overall playing capacity in the area.

7b.3 The applicant has demonstrated that the bowling demand can be absorbed within other nearby greens and that the tennis courts were of limited value in terms of construction and usage, being blaze courts without artificial lighting. Sportscotland has conceded that a financial sum be acceptable to improve quality of other tennis facilities in the area.

Falkirk Council Local Development Plan

7b.4 The proposed Falkirk Local Development Plan was approved by the Council for consultation on 6 March 2013, with the period for representations running from April to June 2013. It is expected to be adopted in early 2015, at which point it will replace the extant Structure Plan and Local Plan. It provides the most up to date indication of Falkirk Council's view in relation to Development Plan Policy and constitutes a material consideration in the determination of planning applications.

7b.5 The following policies of the emerging Falkirk Local Development Plan are relevant to the assessment of the application under consideration:

Policy HSG03 - Windfall Housing;
 Policy INFO2 - Developer Contributions to Community Infrastructure
 Policy INFO3 - Protection of Open Space;
 Policy INFO4 - Open Space and New Residential Development;
 Policy INFO5 - Education and New Housing Development;
 Policy DO3 - Urban Design
 Policy DO4 - Low and Carbon Zero Development.

7b.6 The above policies reinforce and develop relevant policies in the extant Falkirk Structure Plan and Falkirk Council Local Plan.

7b.7 The proposal considered to be in accordance with these policies, as expanded upon within paras 7a.1 - 7a.15

Point Raised by Contributors

7b.8 It is noted that the site is currently not in use. As a privately owned site, this is a matter for the landowner. However, any unwanted presence on the site could well be a police matter.

7b.9 The application seeks the principle of development and, if successful, the details of building numbers, design and layout would be subject to further approach to the planning authority.

7b.10 The redundancy of the facility is a commercial decision implemented by the landowner.

- 7b.11 The land is not 'zoned' for leisure, but is designated urban land within a settlement envelope. The current use is considered assembly and leisure but this does not, in itself, preclude development for other purposes.
- 7b.12 Falkirk Council's Leisure Strategy and Corporate Plan may promote leisure and recreation, but where a private owner ceases such operations, this loss of provision cannot be reversed. It is in the determination of this application an assessment of whether development of the site for housing purposes would be considered acceptable, subject to appropriate mitigation measures being in place.

Applicant's Supporting Statement

- 7b.13 In summary, the applicant has submitted a statement in support of the proposal, indicating that:
- The Castings Social Club, which includes both the bowling club and the tennis club, has failed to produce a sufficient revenue to ensure that the club can meet all of its reasonable running costs and has accumulated a significant debt, the level of which the club is not in a position to service;
 - There is no ongoing activity on the site and it should be noted that the social club, bowling club and tennis club will not reopen, irrespective of the outcome of this application;
 - The applicant contends that the terms of the development plan have been met;
 - The proposal does not result in the loss of any sporting facility, given that facilities in question have already been permanently lost, and
 - The applicant is willing to offer financial mitigation to offset the previously established sports' provision.

7c Conclusion

- 7c.1 The application site comprises a former bowling and tennis club with associated clubhouse and pavilion. The applicant has submitted that financial constraints dictate that there is no prospect of the facility reopening. The applicant has reached agreement with sportscotland and Falkirk Community Trust that a financial contribution would offset the loss of the tennis courts, which were limited in their usage. No financial contribution is invited regarding the bowling club element, in light of membership levels within similar facilities nearby.
- 7c.2 In terms of the Development Plan, the site is not designated uniquely for recreational purposes and it is considered that the applicant has demonstrated that the loss of the previously recreational provision can be offset and the site adopted to housing purposes without offence to current development plan policy.
- 7c.3 The site is technically within the zone of influence of a registered major hazard (now removed) and any favourable determination of the application would require referral to Scottish Ministers.

7c.4 The matter of the commuted payment is intended to be dealt with by means of legal agreement.

8. RECOMMENDATION

8.1 It is recommended that the Planning Committee indicate that it is minded to grant planning permission in principle subject to:

- Approval of an appropriate legal agreement to secure financial mitigation of the sum of £40,000 from the applicant toward off site sports provision; and
- Referral of any decision to approve to Scottish Ministers, due the presence of a registered hazardous installation and thereafter, on conclusion of the foregoing, to remit to the Director of Development Services to grant planning permission subject to:-

Condition(s)-

1. As part of any application for Matters Specified in Conditions, a Contaminated Land Assessment shall be submitted for the written approval of this Planning Authority. Before the dwellinghouse is occupied, any necessary remedial works to make the ground safe shall be completed in accordance with an approved remediation strategy, and any necessary remediation completion report/validation certificate shall be submitted to and approved in writing by this Planning Authority.
2.
 - (i) Unless otherwise agreed in writing, no development shall commence on site until a contaminated land assessment in accordance with current guidance has been submitted and approved by the Planning Authority. The assessment shall determine the nature and extent of any contamination on the site, including contamination that may have originated from elsewhere, and also identify any potential risks to human health, property, the water environment or designated ecological sites .
 - (ii) Where contamination (as defined by Part IIA of the Environmental Protection Act 1990) is encountered, a detailed remediation strategy shall be submitted to and approved in writing by the Planning Authority. The strategy shall demonstrate how the site shall be made suitable for its intended use by the removal of any unacceptable risks caused by the contamination.
 - (iii) Prior to the commencement of development, the remediation works shall be carried out in accordance with the terms and conditions of the remediation scheme as approved in writing by the Planning Authority. No part of the development shall be occupied until a remediation completion report/validation certificate has been submitted to and approved in writing by the Planning Authority.

3. Development shall not begin until a Drainage Assessment has been submitted to and approved in writing by the Planning Authority.
4. The development hereby approved shall be limited to no more than 16 units.
5. For the avoidance of doubt, any development proposal exceeding 16 units shall incur a requirement for commuted payment towards Education provision on a pro-rata basis of £900 per unit, details to be submitted to and approved in writing by the Planning Authority.

Reason(s):-

- 1,2. To comply with Section 59 of the Town and Country Planning (Scotland) Act 1997.
3. To ensure the ground is suitable for the proposed development.
4. To ensure that the development is adequately drained.
5. To allow the planning authority to control the capacity of the site in relation to Educational provision in the area.

Informative(s):-

1. Plans and particulars of the matters listed above shall be submitted for consideration by the planning authority, in accordance with the timescales and other limitations in section 59 of the Town and Country Planning (Scotland) Act 1997 (as amended). No work shall begin until the written approval of Falkirk Council as planning authority has been given, and the development shall be carried out in accordance with that approval.
2. For the avoidance of doubt, the plan(s) to which this decision refer(s) bear our online reference number(s) 01.

Pp
Director of Development Services
