Subject: Re: P/20/0530/FUL - Erection of 22 Flatted Dwellings and 1 Dwellinghouse on Land To The West Of 14 King Street, Thornhill Road, Falkirk

Good afternoon,

I live in 54 King Street and we have serious problems about parking the cars. No space, parking without attention. More and more time I had asked the possibility to open my gate on the street near the park for parking my car in my private space and the answer was no everytime because the street near the park was a service street. Now the idea is close this part with private space. I don't think it's normal and correct to refuse one proposal and give the possibility to the company to use the service street.

Kind regards

Ilaria Mazzone
