Re. Application No P/21/0046/ful I would like to submit objections to the said application in respect to . 1 infrastructure of roads etc to glen rd are already congested 2 existing habitat and countryside is being destroyed by constant ongoing building works in Torwood 3 residents are fed up with the volume of heavy traffic constantly using glen rd with building material being delivered I would hope that our local planning dept. and councilors would give some consideration to my and other residents objections before allowing this development to go ahead Regards Mr Peter O'Rourke.
