## Enclosure 31

## Current Indexed Rates - Education

The baseline rates for education developer contributions are stated in SG13 Developer Contributions, page 13, and also stated in Table 3, on the next page of this document.

The figures, in Table 1 below, are the baseline rates adjusted for inflation over the period March 2019 - March 2021. The figures were derived using the BCIS General Building Cost Index, and constitute the 'current indexed rates' in terms of SG13, page 13.

*No indexation was applied to the rates in financial year 2019/20 as these are the baseline rates. The baseline rates came into effect on the date of the adoption of Revised SG10 (November 2019). In July 2021, SG13 superseded Revised SG10 as the Council's supplementary guidance on education and new housing development.
