

GREENPARK COMMUNITY CENTRE

Community Learning and Development

The aim of Community Learning & Development is to improve the quality of individual and community life, to strengthen communities, to promote social inclusion and increase active citizenship.

We will achieve this by promoting personal development and lifelong learning with both young people and adults.

Our priorities for service delivery are directly informed by the Strategic Community Plan priorities for lifelong learning, community regeneration, community safety, health and economic development.

Welcome to the Greenpark Community Centre!
