 web: www.brisc.org.uk

See back page for EVENTS TIMETABLE!

**Make your local
Wildlife Count!**

Although central Scotland is one of the more urban areas of Scotland, it has many interesting animals and plants found right on our doorsteps.

The Wildlife Counts Project will offer you **FREE** local workshop events so you can learn how to identify and count animals and plants. We will tell you how wildlife is recorded, and why. Once you have learned the basics you can help to conserve your local wildlife by letting us know what you have seen and where.

mammals insects plants birds and bats

You can learn about:

We want to involve **ANYONE** who is interested in and enthusiastic about wildlife, but with little or no experience of wildlife counting. Local workshops, including indoor and outdoor sessions, will run from April to October 2006 (see back page). More events are planned for 2007. The project will involve several sites and communities in Falkirk, Stirling and North Lanarkshire.

More forms may be found at www.brisc.org.uk.

All workshops are FREE, but you will need to register.

Biological Recording in Scotland (BRISC) is a charitable organisation which promotes the gathering of environmental data in order to increase public awareness about biological diversity in Scotland and to ensure that effective actions are taken to conserve this resource.

The Wildlife Counts Project is supported by the:

Heritage Lottery Fund

Please complete slip and return to Claire McSorley, 24 Allan Park, Stirling FK8 2QG

The timetable of events is on the back page.

You are welcome to come along to all, some or just one of the workshop events in any area. All events, except those in April, will have an outdoor session so please wear suitable clothes and boots. We will send you more information once you have registered.

REGISTRATION FORM

To register for one or more **FREE** events, please fill in your details, complete the form on the back page, noting the number of attendees, and send both to:

Claire McSorley, 24 Allan Park, Stirling, FK8 2QG
phone: 01786 474 061 email: brisc-wcp@btcv.org.uk
