Appendix 5 : Glossary

ACTIVE FRONTAGES

Where the street/public frontage to retail or other commercial properties have a window display that expresses the goods or services on offer. This should aid the impression of vitality of settlement centres.

ACTIVE LANDFILL

Landfill that accepts any wastes that are not inert or inactive (see below). This is normally taken to include household waste, commercial waste, industrial and special wastes.

AFFORDABLE HOUSING

Broadly defined as housing of a reasonable quality that is affordable to people on modest incomes. In some places the market can provide some or all of the affordable housing that is needed, but in other places it is necessary to make housing available at a cost below market value to meet an identified need with the support of subsidy.

AREA OF GREAT LANDSCAPE VALUE

Planning authorities can designate AGLVs for the purpose of safeguarding locally important areas of outstanding scenic character or quality from inappropriate development.

ARTICLE 4 DIRECTION

An Order approved by the Scottish Ministers under Article 4 of the Town and Country Planning (General Permitted Development)(Scotland) Order. It offers additional powers to the planning authority for controlling development within Conservation Areas by requiring formal planning consent for development that would otherwise be exempt.

BIODIVERSITY

Biodiversity refers to the whole variety of life on earth including the ways that plants and animals live together on communities, the range of different species and variations within them.

BROWNFIELD SITES

Sites that have been previously developed or used for some purpose which has ceased. Excludes open space, garden ground, etc.

BULKY GOODS

Goods such as furniture, carpets, furnishing, DIY, large electrical appliances which require large floor areas for display, and are of such a size that they would not normally be taken away by car.

COMMERCIAL LEISURE

Developments within Class 11 (Assembly and Leisure) of the Town and Country Planning (Use Classes) (Scotland) Order 1997 which need to be accessible to a large number of people, such as multi-screen cinemas and bowling alleys.

COMPARISON RETAIL

Refers to items not usually shopped for on a frequent basis. This normally includes shopping for clothing, footwear, household goods and recreational goods. The official definition of comparison and convenience retailing (see below) is included in Data Consultancy Brief 98/2 "UK Goods Based Retail Expenditure Estimates and Price Indices" published in September 1998.

CONVENIENCE RETAIL

Refers to shopping for essential every day items. This normally includes food shopping, drinks, tobacco, newspapers, magazines and confectionery.

CONSERVATION AREA

Section 61 Planning (Listed Buildings and Conservation Areas) (Scotland) Act 1997. Areas of special architectural or historic interest the character or appearance of which it is desirable to preserve or enhance, are designated by the Secretary of State as Conservation Areas. Additional powers and responsibilities regarding the control of development are conferred by designation of a Conservation Area.

CORE PATHS PLAN

A duty of the Local Authority set out in the Land Reform (Scotland) Act to draw up a plan for a system of paths ("core paths") sufficient for the purpose of giving the public reasonable access throughout their area.

Appendix 5 : Glossary

COUNTRYSIDE

Land outside of the urban limit, as defined by the Local Plan proposals map.

DESIGN CONCEPT STATEMENT

A report required as part of criteria ENV.7 of Structure Plan which sets out how design principles have been addressed and how quality objectives will be achieved. Further advice is available from PAN68: Design Statements.

DEVELOPER CONTRIBUTION

The payment by the developer for community facilities, physical infrastructure or environmental enhancement where it is required to make a proposal acceptable in land use planning terms.

DEVELOPED COAST

That part of the coast which consists of urban development either as part of a settlement or as free standing development.

DEVELOPMENT BRIEF

A planning document, normally prepared by the Council, which sets out the likely planning requirements which future proposals should address. Sometimes referred to as a planning brief.

EDGE OF CENTRE

A location within easy walking distance of a town or district centre, usually adjacent to the centre and providing parking facilities that serve the centre as well as the store, thus enabling one trip to serve several purposes.

EFFECTIVE HOUSING LAND SUPPLY

This is the part of the established land supply that is expected to be free of constraints in the 5 year period under consideration and will therefore be available for construction of houses.

ESTABLISHED HOUSING LAND SUPPLY

All land with agreed potential for housing development by virtue of having planning permission or being identified in an adopted Local Plan or other relevant planning documents.

FLOOD RISK ASSESSMENT

An assessment carried out to predict and assess the probability of flooding for a particular site or area and recommend feasible mitigation measures including maintenance. (SPP7)

FALKIRK GREENSPACE INITIATIVE

An initiative which aims to enhance the countryside around towns and villages of Falkirk Council area by linking existing parks and open spaces, improving the landscape and creating landscaped corridors with paths and cycleways.

GREEN BELT

An area of land where development is strictly controlled in order to direct growth to the most appropriate locations, to protect the landscape setting of settlements, and to prevent the coalescence of settlements.

GREENFIELD SITES

These are sites which have never been previously developed or used for an urban use, or are on land that has been brought into active or beneficial use for agriculture or forestry i.e. fully restored derelict land.

HOUSING LAND AUDIT

The annual appraisal of the effective and established housing land supply.

HOUSING MARKET AREA

A geographical area which is relatively self contained in terms of reflecting people's choice of location for a new home, i.e. a large percentage of people settling in an area will have sought a house only in that area.

INFILL DEVELOPMENT

Refers to housing or other developments within the curtilage of existing properties or on small gap sites.

The resulting subdivision of the curtilages of properties can distort the established form of the surrounding built environment and give the impression of over-development or cramming, and thus the character/visual attractiveness of an area can be affected.

LOCAL AGENDA 21

The term has been used by many communities to describe their programme of action on sustainable development, looking ahead to the 21st century.

LOCAL NATURE RESERVE

Local authorities in conjunction with Scottish Natural Heritage have powers to declare Local Nature Reserves. They normally reflect areas locally important for nature conservation with a high natural heritage interest and afford a particular value for education and informal enjoyment of nature by the public.

MASTERPLAN

A masterplan explains how a site or a series of sites will be developed, describing and illustrating the proposed urban form in three dimensions. It should explain how the form will achieve the intended vision for the place, describing how the proposal will be implemented, setting out the costs, phasing and timing of development. A masterplan is usually prepared later in the development process than either an urban design framework or development brief, and is prepared by or on behalf of the organisation that owns the site or controls the development process.

MILLENNIUM LINK

Refers to the landmark project that re-opened the entire Forth and Clyde Canal and the Union Canal for navigation.

NATIONAL PLANNING FRAMEWORK 2

A national planning policy document, following on from the publication of the National Planning Framework which sets out the long-term strategic vision for development in Scotland. NPF2 includes a list of priority developments such as Grangemouth Port.

OPPORTUNITY

Refers to a site indicated in the Local Plan, but which is not a committed site, previously allocated in a development plan or that has been granted planning permission in the past. The effectiveness and capacity of opportunity sites are not necessarily proven.

OUT OF CENTRE

A location that is clearly separate from a Town Centre or District Centre, but within the urban area, including programmed extensions to the urban area in approved or adopted development plans.

PLANNING GAIN

An obligation or financial contribution made as a condition of the development proceeding normally secured under Section 75 of the Town and Country Planning (Scotland) Act 1997. Such agreements are recorded in the Land Register and are legally binding on future owners of the land.

POLICY

A statement that expresses the objectives of the Council on a given topic. Policies and their background information are in the text of the Local Plan and some are also expressed on the Proposals Map (see below). Any development proposal is assessed against the criteria given in the policies.

PRIME AGRICULTURAL LAND

Defined by Classes 1, 2 and 3.1 in the Macauley Institute 'Land Capability for Agriculture' classification. See Circulars 18/1987 and 25/1994.

PROPOSAL

A site identified in the Local Plan for a specific development, development proposals are found on the Proposals Map. For example, Existing Commitments (effective and established sites within the Housing Land Audit) are identified as proposals.

RAMSAR SITE

Site for nature conservation listed under the Convention on Wetlands of International Importance.

SCHEDULED ANCIENT MONUMENT

It is the responsibility of the Scottish Ministers to list all monuments of national importance in a Schedule, as required by Section 1 of the Ancient Monuments and Archaeological Areas Act 1979.

Appendix 5 : Glossary

SECTION 75 AGREEMENT

An agreement between a local authority and any person interested in land in their area for the purposes of restricting or regulating the development or use of that land either permanently or during a period of time (see circular 12/1996).

SEPA

Scottish Environment Protection Agency. Executive agency responsible for the regulation and protection of Scotland's environment. Its aim is to provide an efficient and integrated environmental protection system that will improve the environment and contribute to the Scottish Minister's goal of sustainable development.

SEQUENTIAL APPROACH

An approach to the selection of sites for development where preference is given to certain locations. For retail and commercial leisure development this is set out in NPPG 8 (revised 1998) Town Centres and Retailing. For Housing this is set out in Policy COM 2.

SITES OF IMPORTANCE FOR NATURE CONSERVATION (SINC)

Locally designated area for nature conservation.

SITES OF SPECIAL SCIENTIFIC INTEREST (SSSI)

SSSIs are key areas of marine conservation and wildlife importance. They are special for the nature conservation value of the plants, animals or habitats as well as any rock formations. SSSIs are designated by SNH under the provisions of the Wildlife and Countryside Act 1981 and in accordance with specific guidelines to protect the special interest of the site from damage or deterioration. SNH must be consulted on any development or activities which may affect the site.

SMALL SITES

Sites for 3 or less houses which the previous Structure Plan for the former Central Region (Central 2000) did not include in the housing land supply.

SPECIAL AREA OF CONSERVATION (SAC)

In accordance with the EC Directive on the Conservation of Natural Habitats and of Wild Fauna and Flora, SACs require to be designated to safeguard rare and threatened species and habitats listed in the Directive.

SPECIAL PROTECTION AREA (SPA)

Designated under the EU Directive 79/409/EEC on the Conservation of Wild Birds to protect bird species and the habitat upon which they depend. Together with SACs (above), SPAs form a network of European sites known as Natura 2000.

STRUCTURE PLAN

The Structure Plan sets out the strategic policies and proposals of the Council area. Together with the Local Plan it comprises the Development Plan, a statutory planning document.

SUSTAINABLE DEVELOPMENT

Development which meets present needs without jeopardising the ability of future generations to meet their needs.

SUSTAINABLE URBAN DRAINAGE SYSTEMS (SUDS)

Techniques for dealing with problems of flooding and surface water quality by encouraging rainwater to drain into the soil, or slow-draining channels and ponds.

TRANSPORT ASSESSMENT

Required to assess the impact of traffic generated by new developments and to propose measures which will encourage walking, cycling and the use of public transport.

TRAVEL PLAN

Plan by a business or other organisation which defines the steps being taken to ensure that specified levels of travel by employees and customers are made by walking, cycling, bus or rail.

TREE PRESERVATION ORDER

A TPO is made by the Local Planning Authority, under Section 160 of the Town and Country Planning (Scotland) Act, 1997, to protect trees which have particular amenity value, making a significant contribution to the landscape or townscape where they are growing. They are retained for public enjoyment.

Appendix 5 : Glossary

URBAN LIMIT

Built-up/developed area as defined in the Local Plan Proposals Map.

USE CLASS ORDER

The Town and Country Planning (Use Classes) (Scotland) Order, 1997 defines 11 classes of development. Planning permission is generally required for changes of use between the classes.

VITALITY AND VIABILITY

Vitality is a measure of how busy a shopping centre is. Viability is a measure of a shopping centre's capacity to attract ongoing investment. Taken together, these give an indication of the health of a shopping centre.

WILDLIFE SITES

Non-statutory local level areas of wildlife importance which meet criteria established by the Scottish Wildlife Trust.

WINDFALL SITES

Sites that become available for appropriate housing development which have not been identified in adopted Local Plans.
