# 1. Introduction

## 1.1 About the building standards system in Scotland

The Building Standards system in Scotland was established under the Building (Scotland) Act 2003. The Act gives powers to Ministers to make building regulations, procedure regulations, fees regulations and other supporting legislation as necessary to fulfil the purposes of the Act. The purposes include setting Building Standards and dealing with dangerous and defective buildings.

The remit of the Building Standards system is to protect the public interest by setting out the standards to be met when building or conversion work takes place, to the extent necessary to meet the building regulations.

The standards are intended to:

- Secure the health, safety, welfare and convenience of persons in or about buildings and of others who may be affected by buildings or matters connected with buildings;
- Further the conservation of fuel and power; and
- Further the achievement of sustainable development.

The role of the Building Standards verifier is to protect the public interest by:

- Providing an independent check of applications for building warrants to construct buildings, provide services, fittings or equipment in buildings, or to convert buildings;
- Granting or refusing building warrants;
- Carrying out an independent check of construction activities through the process of reasonable inquiry; and
- Accepting or rejecting completion certificates.

Verifiers are appointed by Scottish Ministers and the Act provides for a variety of verifiers should they be required. At present, the only appointed verifiers are the 32 Scottish local authorities, each covering their own geographical area. The local authorities were re-appointed on 1 May 2011 for a further six-year period, on the basis that a new performance framework was established to improve the quality, compliance, consistency and predictability of verification activities.

In 2011 Pye Tait Consulting, on behalf of the Scottish Government, developed a set of nine national Key Performance Outcomes (KPOs), which were implemented as

part of the Building Standards Verification Performance Framework and launched on 1<sup>st</sup> May 2012<sup>1</sup>. The intention of these was, through more accurate and effective comparisons, to ensure consistency and quality in terms of outputs and overall service, along with a greater focus on peer review, benchmarking and sharing of best practice. Additionally the KPOs underpin a strong culture of continuous improvement. This encourages local authorities to commit to 'raising the bar' across all aspects of delivery and particularly in relation to quality, compliance and consistency of service, while still maintaining the public interest.

Three of the nine KPOs, categorised under '*Quality Customer Experience*', aim to ensure that verifiers provide high quality standards and services to customers, underpinned by clear and transparent communications, and an understanding of different customer and stakeholder types and their differing needs. These insights, and actions taken in response to them, are intended to bring about continuous improvement of the customer experience through regular measurement and assessment.

## **1.2 Purpose of the national customer survey**

The national customer satisfaction for Building Standards survey aligns with KPO5 of the verification performance framework for Building Standards, titled: '*Improvement of the customer experience*'. The purpose of this KPO is for local authority verifiers to gain a more detailed understanding of their different customer groups and respond appropriately to their needs.

In 2013 the Scottish Government commissioned Pye Tait Consulting to develop and run the first national survey. This was predicated on the need to obtain nationally consistent data on customer perceptions of their local authority Building Standards service. It was also intended that the survey would provide baseline data in order to permit trends analysis over future years<sup>2</sup>. In 2015 and 2016 Pye Tait Consulting was commissioned to undertake subsequent national surveys. The 2016 findings for Falkirk Council are presented in this report.

## **1.3 Survey methodology**

The 2016 survey questionnaire replicated the 2015 version.

The scope of the survey was all Building Standards customers from 1<sup>st</sup> April 2015, defined as:

- a. Applicants for building warrants (including any agents);
- b. Submitters of completion certificates (including any agents); and

- c. Others that have interacted with the Building Standards service.

Local authorities sought consent from their customers to share their contact details (name and email address only) with Pye Tait Consulting for the express purpose of being invited to participate in the survey.

To obtain customer consent, local authorities incorporated a Privacy Notice as part of the Application for Building Warrant form and/or contacted customers by email to provide the opportunity to opt out prior to their contact details being shared with Pye Tait Consulting.

The survey opened on 31<sup>st</sup> October 2016 and closed on 28<sup>th</sup> November 2016. It was hosted online and customers with email addresses were directly invited by Pye Tait Consulting to participate. Local authorities were at liberty to promote the survey link to their own customers (i.e. those within scope) as appropriate.

When completing the survey, customers were asked to select the local authority to which their response related. Customers of multiple local authorities were invited to complete the survey more than once, as applicable.

#### 1.4 Presentation of results

Customer satisfaction survey reports have been produced at the national (Scotland) level and for all individual local authorities in Scotland.

This report presents the findings for customers of **Falkirk Council**.

**The findings are anonymous and based on the perceptions of customers responding to the survey. They provide an indication of possible strengths and weaknesses in customer service although they do not explore the extent to which any particular issues may be within or outside of local authority control.**

The results have not been subject to statistical tests to determine the significance of any apparent patterns and should therefore be treated with caution.

Percentages shown in charts may not add up to precisely 100% due to the impact of rounding.

The following colour key applies to Tables 2 to 4.

Colour key	Numerical rating questions	Percentage questions
Green	Higher than previous year	Higher than previous year
Amber	Between 0.1 and 1.0 lower than previous year	Up to 10% lower than previous year
Red	More than 1.0 lower than previous year	More than 10% lower than previous year

## 2. Results

### 2.1 Total survey responses

Total survey responses for Falkirk is shown in Table 1. This includes a comparison between the response rate for Falkirk and the national (Scotland-wide) response rate.

**Table 1 Achieved sample and response rate**

A	Number of customer email addresses supplied to Pye Tait:	150
B	Of these – number of customers unique to Falkirk (i.e. not also customers of other local authorities):	82
C	Total survey responses attributed to Falkirk:	12
D	Response rate for Falkirk (C as a percentage of A):	8.0%
E	Response rate for Scotland (for reference):	16.8%

### 2.2 Overall satisfaction

Customers were asked to rate their overall satisfaction with the local authority Building Standards service on a scale from 1 'not at all satisfied' to 10 'completely satisfied' (Table 2).

**Table 2 Overall satisfaction with the Building Standards service**

	All customers	Direct applicants/ submitters	Agents	Other
<b>2016 average rating:</b>	8.2	9.0	6.8	-

# Appendix 1: National Survey Questionnaire

## 2016 Customer Satisfaction Survey for Building Standards *Please tell us what you think*

### Introduction

The Scottish Government (Building Standards Division) would like to obtain your views and feedback about the local authority Building Standards service in Scotland. This is a national survey that is being administered separately to customer feedback questionnaires issued by individual local authorities.

As a Building Standards customer since April 2015, we would like to hear about the quality of service you have received, for example when applying for a building warrant and/or submitting a completion certificate. We are interested in your views on the customer service you have experienced as opposed to the actual decision made in response to an application.

### How to complete the survey

You will be asked to identify which local authority your feedback relates to. If you have been a customer of more than one local authority and would like to provide additional feedback, please complete a separate survey.

The survey should take approximately 10 minutes to complete (this may take a little longer depending on how much feedback you wish to give). Please note, the final question asks you for any additional comments or feedback not covered by the previous questions.

As you progress through the survey, you will only be presented with those questions that are relevant to you. If you are unable to answer any questions, or if you feel they are not applicable, please leave them blank.

### Reassurance

Pye Tait Consulting is carrying out this survey independently on behalf of the Scottish Government and all 32 local authorities in Scotland.

The findings from the survey will be treated confidentially and reported anonymously by Pye Tait Consulting under the Data Protection Act 1988 and the Market Research Society (MRS) Code of Conduct.

If you have any queries, please contact Adrian Smith at Pye Tait Consulting] via [a.smith@pyetait.com](mailto:a.smith@pyetait.com) or by telephoning 01423 509433

Thank you for taking the time to complete this online survey.

## Appendix 2: Survey Invitation Email

Email subject: Building Standards in Scotland – Customer Feedback Questionnaire

Dear {Name}

We are writing to you as a customer of the local authority Building Standards service in Scotland.

This means that since 1st April 2015 you may have submitted a building warrant application, completion certificate, used the services of your own agent, or made other enquiries through your local authority Building Standards service. You may also have been an agent acting on behalf of an applicant.

The Scottish Government would like to obtain your views and feedback on the customer service you received. This will help identify which aspects are working well and any areas where improvements need to be made in the future.

We would be most grateful if you would spare 5 or 10 minutes to complete the online survey. This may take a little longer depending on how much feedback you wish to give.

**PLEASE CLICK HERE TO LAUNCH THE SURVEY**

Your feedback is important to us, even if you are not able to answer all questions or have had limited contact with the local authority Building Standards service.

Further information, including our contact details, can be found via the survey link.

Many thanks for your time and contribution.

Kind regards,

Pye Tait Consulting (on behalf of the Scottish Government, Building Standards Division)
