

# Social Work

## Our Vision is:

- We deliver, through our competent & confident workforce, high quality care and protective services that make a real and positive difference to the quality of people's lives.
- We do this by working with the people who need/use our services and by developing services that, as far as possible, meet their unique circumstances.
- We aim to make services integrated and straight forward by working with other agencies and communicating clearly and effectively.
- Our values of courtesy, care and respect are evident in everything that we do.

*putting people first*
