

Polling District and Polling Place Review 2013

Returning Officer's Submission and Proposed Changes

In anticipation of this report, all Polling Places currently in use have been inspected and a number of alternatives investigated. This report outlines the considerations of each of the Polling Places currently in use, noting that most are satisfactory in terms of location within the Polling District, parking, accessibility (including disabled access) and facilities for the allocated number of electors. A number of suggestions are made where it is believed that the Polling Scheme could be improved for the benefit of electors and those undertaking polling duties on behalf of the Returning Officer.

Ward 1 – Bo'ness and Blackness

Polling District LE101 – Carriden

Polling Place – Cowdenhill Community Hall

This is a long established Polling Place which has good facilities and is in a convenient location. No change is proposed.

Polling District LE106 - Bo'ness South East

Polling Place – Bo'ness Recreation Centre

This Polling Place is conveniently located with good parking and accessibility. It was used for the first time for the local government elections in May 2012 with no adverse comments received. No change is proposed.

Polling District LE111 – Blackness

Polling Place – Blackness Community Hall

The Community Hall was chosen in preference to the primary school next door for the local government elections in May 2012 as part of the general drive to reduce the number of school premises used for polling purposes, where possible. The hall is normally used for school meals, but Education Services have indicated that arrangements will be made for the children to have lunch in the school on polling days, including arrangements for free school meal recipients. No change is proposed.

Polling Districts LE116 – Bo'ness Centre – Upper

Polling Place – Bo'ness Town Hall

LE120 - Bo'ness Centre – Lower

Polling Place – Salvation Army Hall

The current Polling Place for LE116 – Bo'ness Centre – Upper is Bo'ness Town Hall. This building has accessibility issues for those with disabilities and the lighting in the hall is poor. The Polling Place for LE120 – Bo'ness Centre – Lower is the Salvation Army Hall which has good accessibility and facilities. It is therefore proposed that Bo'ness Town Hall ceases to be used as a Polling Place and that these two Polling Districts are amalgamated, using the Salvation Army Hall as the Polling Place. It is also suggested that consideration be given to revising the boundary of

the merged Polling District in the south if it can be shown that electors would have better access to one of the other Polling Places in the south of the town.

Polling District LE126 – Maidenpark
Polling Place – Kinneil Primary School

While it would be preferable to find an alternative Polling Place so that the school would not have to be used, it has not proved possible as any potential alternatives have drawbacks which preclude their use. Kinneil Primary School is a well-established Polling Place with satisfactory parking and access.

No change is proposed.

Polling District LE131 – Deanfield
Polling Place – Kinneil Bowling Club

Kinneil Bowling Club is an established Polling Place with suitable parking and facilities.

No change is proposed.

Polling District - LE135 – Deanburn
Polling Place – Deanburn Primary School

There are no alternative Polling Places within this fairly large Polling District. It is therefore necessary to continue to use Deanburn Primary School as the Polling Place. It has suitable parking, access and facilities.

No change is proposed.

Ward 2 – Grangemouth

Polling District LE200 – Dalgrain
Polling Place – Dalgrain Community Hall

Polling District LE205 – Newlands
Polling Place – Newlands Community Centre

Polling District LE211 – Grangemouth Centre
Polling Place – Grangemouth Town Hall

Polling District LE215 – Bowhouse
Polling Place – Bowhouse Community Centre

Polling District LE221 – Inchyra
Polling Place – Dundas Resource Centre

Polling District FE230 – Skinflats
Polling Place – Bothkennar Community Hall

The Polling Scheme for the above-noted Polling Districts and Places was introduced for the local government elections in 2012. All buildings are satisfactory from the point of view of convenient locations, parking, disabled access and facilities and no adverse comments were received.

No change is proposed to the Polling Scheme for this Ward.

Ward 3 – Denny and Banknock

Polling District FW300 – Dunipace
Polling Place – Dunipace Church Hall

Polling District FW305 – Denny Centre
Polling Place – Denny Westpark Church Hall

Polling District FW310 – Fankerton
Polling Place – Fankerton Village Hall

All of the above are well-established Polling Places in reasonably central locations within their Polling Districts, have satisfactory parking, disabled access and facilities.
No change is proposed.

Polling District FW316 – Denny South
Polling Place – Nethermain Primary School

While it would be preferable to find an alternative Polling Place so that the school would not have to be used, no suitable alternatives have been found. Nethermain Primary School is a well-established Polling Place with satisfactory parking and access.
No change is proposed.

Polling District FW321 – Head of Muir and Dennyloanhead
Polling Place – Archibald Russell Centre

Polling District FW325 – Banknock
Polling Place – Banknock Community Centre

Polling District FW330 – Allandale
Polling Place – Allandale Bowling Club

The three Polling Places noted above are well established in their communities, with satisfactory parking, access and facilities. In the case of the Archibald Russell Centre and Allandale Bowling Club, there are no viable alternatives in the area.
No change is proposed.

Ward 4 – Carse, Kinnaird and Tryst

Polling District FE400 – Airth
Polling Place – Airth Community Hall

This Polling Place is centrally located within the village with satisfactory parking, disabled access and facilities.
No change is proposed.

Polling District FE406 – Carronshore
Polling Place – Carronshore Sports and Social Hall

As a consequence of the review of Polling Districts and Polling Places for the 2012 local government elections, this Polling Place is now centrally located within its Polling District. No change is proposed.

Since the 2012 elections, a new school, St Bernadette's, has been opened in the Antonshill area of Stenhousemuir where previously there were no suitable premises for elections. This has provided an opportunity to make revisions to the Polling Scheme in the remainder of this Ward. Suggestions for Polling District boundaries will be made as part of this exercise. The proposals below are made regarding possible Polling Places.

Polling District FE411 – Carron

Polling Place – currently Carron Primary School; proposed – Free Church of Scotland Hall or Carron and Carronshore Bowling Club, both Beaumont Drive, Carron

The current Polling Place in this Polling District is Carron Primary School. It would be preferable not to use the school as a Polling Place and, for this reason, Stenhousemuir Sports Centre was suggested as an alternative at the time of the last review. However, this was rejected because of pedestrian accessibility difficulties. The Free Church of Scotland Hall and Carron and Carronshore Bowling Club, both Beaumont Drive, Carron, are suggested as alternatives. Both premises have good parking, disabled access and facilities and are considered feasible options for polling purposes. It is therefore proposed that either the Free Church of Scotland Hall or Carron and Carronshore Bowling Club be used instead of Carron Primary School, subject to agreement (currently being sought in relation to both premises). As part of the more general review (see above), it is suggested that the Polling District boundary be reviewed.

Polling District FE416 – Carron Dams

Polling Place – Stenhouse and Carron Parish Church

Stenhouse and Carron Parish Church was used as a Polling Place for the first time in the local government elections in 2012 with no adverse comments received. It is in a central location within its Polling District and has satisfactory parking, disabled access and facilities. As part of the general review in this area, there may be some consequent changes to the boundary of the Polling District, but any additional electors can be accommodated. No change is proposed.

Polling District FE421 – The Valley

Polling Place – Tryst Community Centre

Tryst Community Centre is a new building with good facilities. As part of the general review in this area, there may be some consequent changes to the boundary of the Polling District, but any additional electors can be accommodated. No change is proposed.

Polling District FW426 – Tryst

Polling Place – currently - Stenhousemuir Primary School; proposed - St Bernadette's Primary School

As mentioned above, it is proposed to use St Bernadette's Primary School as a Polling Place. This is a new school with excellent parking, disabled access and facilities. On the other hand, access at Stenhousemuir Primary is more problematic and not ideal. While it would be preferable not to use either school, there are no alternative facilities in this area of Stenhousemuir and as St Bernadette's is a smaller school, fewer pupils will lose a day's teaching.

However, St Bernadette's is at some distance from Stenhousemuir Primary School and it is anticipated that boundary changes will require to be made to the Polling Districts in order to optimise access for electors to suitable Polling Places. Thus not all electors who currently vote at Stenhousemuir Primary will transfer to St Bernadette's. It is anticipated, therefore, that the new scheme will propose that some electors from this Polling District vote at other Polling Places within this area.

Polling District FW431 – Bellsdyke
Polling Place – Kinnaird Primary School

While it would be preferable not to use a school, there are no alternatives to Kinnaird Primary School in the Bellsdyke area. This is a new school with good facilities, accessibility and parking. It was used for the first time for the local government elections in May 2012. It is also used for Polling District FW500.
No change is proposed.

Polling District FW436 – Carronvale Road
Polling Place – Dobbie Hall

For the local government elections in May 2012, it was necessary to create a new Polling District for three new houses because they were located in Ward 4 but also in the Falkirk West constituency. They used the Dobbie Hall as their Polling Place and it is proposed that this be continued. Dobbie Hall has satisfactory parking, accessibility and facilities.
No change is proposed.

Ward 5 – Bonnybridge and Larbert

Polling District FW500 – Inches
Polling Place – Kinnaird Primary School

Whilst Kinnaird Primary School does not lie within this Polling District, which is a purely residential area, it is the closest suitable premise and is also used for Polling District FW431. It would be preferable not to use a school, but there are no alternatives to Kinnaird Primary School in this area. This is a new school with good facilities, accessibility and parking. It is large enough to cope with the number of electors from the two Polling Districts. It was used for the first time for the local government elections in May 2012.
No change is proposed.

Proposed Polling District FW506 – South Broomage
Polling Place – Dobbie Hall

This is a long-established Polling Place which, while not actually within the Polling District, is only just outside it. There are no alternatives within the Polling District itself. Road access in the area is such that the Dobbie Hall is accessible to electors both on foot and by car. Dobbie Hall has satisfactory parking, accessibility and facilities.
No change is proposed.

Polling District FW511 – Larbert
Polling Place – currently - Larbert Village Primary School; proposed - Larbert Bowling Club

In order to cease using Larbert Primary School, as requested by a member of the school's Parent Council, a number of alternative locations were investigated. Larbert Bowling Club is identified as a possible alternative as it has adequate parking, disabled access can be arranged and there is sufficient space for the number of electors. It is therefore proposed that Larbert Bowling Club be used as a Polling Place instead of Larbert Village Primary School, subject to agreement from the Bowling Club (currently being sought).

Polling District FW515 – Torwood

Polling Place – Mobile Unit/Scout Hall

With the closure of Torwood School, it has been necessary to bring in a mobile unit for all recent elections. A proposed merger with FW511 – Larbert was rejected by elected Members at the Review held in 2011. However, it is once again proposed that this Polling District be amalgamated with FW511 using the new proposed Polling Place of Larbert Bowling Club. The Scout Hall at Torwood was investigated, having been suggested as a potential polling place by a local elected Member, but is discounted on account of its location on a busy road outside the village of Torwood; provision of a pavement at one side of the main road only, requiring pedestrians to cross the main road to reach the premises, and shared vehicular access with a private residential property adjacent to the hall. Amalgamation with FW511 – Larbert would be appropriate, taking the above local information into consideration.

Polling District FW520 – North Bonnybridge

Polling Place – Bonnybridge Primary School

Bonnybridge Primary School is a long-established Polling Place and, while it would be preferable to find an alternative to using a school, no suitable alternatives have been identified. The school has parking, disabled access, facilities and space for the fairly large number of electors using it. No change is proposed.

Polling District FW525 – South Bonnybridge/Greenhill

Polling Place – Bonnybridge Community Centre

Bonnybridge Community Centre is a long-established Polling Place with satisfactory parking, disabled access and facilities. No change is proposed.

Polling District FW530 – High Bonnybridge

Polling Place – Antonine Primary School

Antonine Primary School is a long-established Polling Place and, while it would be preferable to find an alternative to using a school, no suitable alternatives have been identified. St Joseph's church was considered, but disabled access is poor from the road and the church is situated at a bend on a particularly busy road. The school has good parking, disabled access and facilities. No change is proposed.

Ward 6 – Falkirk North

Polling District FW600 – Rosebank

Polling Place – Bantaskin Primary School

Bantaskin Primary School is a long-established Polling Place. There are no suitable premises within this Polling District, so the existing Polling Place lies outwith its boundaries. It is,

however, the most convenient premise available for this area. The school has good parking, disabled access and facilities. This Polling Place is also used by FW721.
No change is proposed.

Polling District FW605 – Grahamston and Dollar Park
Polling Place – St Francis Xavier Church Hall

St Francis Xavier Church Hall is a long-established Polling Place. This facility has good parking, disabled access and facilities and has been used for several elections.
No change is proposed.

Polling District FW610 – New Carron
Polling Place – Bainsford Community Centre

Bainsford Community Centre has satisfactory parking, disabled access and facilities for a large number of electors. Alternative locations in the west of the Polling District have been considered, but there are no suitable premises and the number of electors is too large for a mobile facility. It is considered that availability and suitability of vacant premises within the local retail units, as suggested by a local elected Member, are too uncertain to make this a feasible alternative.
No change is proposed.

Polling District FW615 – Dawson
Polling Place – Dawson Centre

Polling District FW620 – Victoria
Polling Place – Thornhill Community Centre

Polling District FW625 – The Bog
Polling Place – Westfield Community Centre

Polling District FW630 – Callendar Park
Polling Place – Leishman Tower Club Room

The four Polling Places listed above are well established within their areas. They are generally well located, with satisfactory parking, disabled access and facilities.
No changes are proposed.

Polling District FW635 – Howgate
Polling Place – Woodlands Games Hall

It had been hoped that this small Polling District could be split between FW605 and FW630 as it was hoped to move the Polling Place for Polling District FW731 from Woodlands Games Hall to the Salvation Army Hall. However, use of the premises by other organisations means that it is no longer available for polling purposes. Therefore, electors in FW731 will have to continue to use Woodlands Games Hall. In these circumstances, it is considered that this small Polling District should continue in the meantime.
No change is therefore proposed.

Polling District LW640 – West Mains
Polling Place – Westfield Community Centre

In order to match the geographies of the Wards and the Parliamentary constituencies, it is necessary to create a Polling District which covers largely the Westfield Industrial Estate. There are currently no electors. The Polling Place is Westfield Community Centre – see comments at FW625 above.

No change is proposed.

Ward 7 – Falkirk South

Polling District FW701 – Camelon West

Polling Place – Easter Carmuir Primary School

While it would be preferable to find an alternative Polling Place so that the school would not be needed for polling purposes, there are no alternatives in the area. Easter Carmuir Primary School is a well-established Polling Place with satisfactory parking, accessibility and facilities.

No change is proposed.

Polling District FW705 – Camelon East

Polling Place – Carmuir Primary School

While it would be preferable to find an alternative Polling Place so that the school would not have to be used, there are no alternatives in the area. Carmuir Primary School is a well-established Polling Place with satisfactory parking, accessibility and facilities.

No change is proposed.

Polling District FW710 – Tamfourhill

Polling Place – Tamfourhill Community Centre

This Polling Place is centrally located within its Polling District with satisfactory parking, disabled access and facilities.

No change is proposed.

Polling District FW715 – Summerford

Polling Place – Greenbank Court Meeting Room

This Polling Place covers a very small Polling District, with a high proportion of the local electorate being elderly and benefitting from the location of the current polling place. The Polling Place is well-established with satisfactory parking, accessibility and facilities.

No change is proposed.

Polling District FW721 – Bantaskin

Polling Place – Bantaskin Primary School

Bantaskin Primary School is a long-established Polling Place. The school has good parking, disabled access and facilities. This Polling Place is also used by FW600.

No change is proposed.

Polling District FW726 – Camelon North East

Polling Place – Camelon Education Centre

This Polling Place is centrally located within its Polling District with satisfactory parking, disabled access and facilities.

No change is proposed.

Polling District FW731 – Woodlands
Polling Place – Woodlands Games Hall

It had been hoped to move the Polling Place for this Polling District from Woodlands Games Hall to the Salvation Army Hall which was used previously as it is more conveniently located within the Polling District. However, usage of the Salvation Army Hall has increased and it is no longer possible for the premises to be made available for polling purposes. Woodlands Games Hall has satisfactory parking, access and facilities for the large number of electors in this Polling District.

No change is therefore proposed.

Polling District FW740 - Glen Village
Polling Place – currently - Glen Village Bowling Club/Mobile Unit; proposed – Hallglen Sports Centre

The premises previously used for polling purpose in this Polling District – Glen Village Bowling Club - have now been demolished. For the local government elections in 2012, a mobile unit was used as a Polling Place. The siting of this unit on the former bowling club grounds was not very satisfactory and alternative parking areas for a mobile unit in the village are limited, as is parking for electors and polling staff. In addition, the cost of hiring a mobile unit, a toilet facility and a generator, as well as the polling staff costs, result in a disproportionately high financial cost in comparison with the number of local electors and the anticipated turnout at forthcoming electoral events.

It is therefore proposed that this Polling District be amalgamated with FW746 and that electors vote in Hallglen Sports Centre – see below. This facility is considerably closer to Glen Village than to other areas within FW746.

Polling District FW746 - Hallglen/Lionthorn and Polling District FE750 – Falkirk Rural
Polling Place – Hallglen Sports Centre

This facility is a well-established Polling Place with good parking, disabled access and facilities to cope with a large electorate.

No change is proposed – see FW740 above.

Ward 8 – Lower Braes

Polling District FE801 – Laurieston North
Polling Place – Laurieston Community Hall

Polling District FE806 – Laurieston South
Polling Place – currently Laurieston Primary School; proposed – Laurieston Church Hall

Access to Laurieston Community Hall is poor, as is parking, and the facilities are not as good as in most premises used for polling purposes. It is therefore proposed that use of these premises be discontinued and Polling Districts FE801 and FE806 be amalgamated.

It is further proposed that Laurieston Church Hall be used as the Polling Place instead of Laurieston Primary School in the interests of reducing the number of schools used for polling purposes if a suitable alternative is available. While the Church Hall is perhaps less conveniently located, parking is available, together with disabled access and space for polling purposes. This proposal is subject to approval by the Church Board.

It is therefore proposed that Laurieston Church Hall be used as a Polling Place instead of Laurieston Community Hall and Laurieston Primary School, subject to agreement from the Church (currently being sought).

Polling District FE811 – Westquarter
Polling Place – Westquarter Community School Project

Polling District FE816 – Polmont South
Polling Place – Polmont Sports Centre

Polling District FE820 – Polmont
Polling Place – Greenpark Community Centre

Polling District FE826 – Brightons
Polling Place – Grange Community Centre

Polling District LE826 – Overton/Brightons
Polling Place – Grange Community Centre

The above four Polling Places covering five Polling Districts were all used in the local government elections in 2012 with no adverse comments received. All have suitable parking, disabled access and facilities.

No changes are proposed.

Polling District LE830 – Beancross and Newlands
Polling Place – currently - Laurieston Community Hall; proposed – Laurieston Church Hall

This Polling District consists of the two small areas which together form the Polling District LE830. It is necessary to keep these two areas separate as the Westminster constituency boundaries mean that these electors are in the Linlithgow and East Falkirk Constituency and not the Falkirk Constituency with the immediately surrounding area in Ward 8 – Lower Braes. Since it is proposed to stop using Laurieston Community Hall for Polling District FE801, it will also be necessary to relocate Polling District LE830 electorate to Laurieston Church Hall, subject to approval being given, as noted above.

Polling District LE836 – Reddingmuirhead
Polling Place – Reddingmuirhead Community Centre

This Polling Place is shared with Polling District LE911. The Polling Place has suitable parking, good disabled facilities and sufficient space for polling purposes for two separate Polling Districts.

No change is proposed.

Polling District LE840 - Battock
Polling Place – Maddiston Community Centre

This Polling District consists of the small area which is currently the Polling District LE840. It is necessary to keep this area separate as the current Westminster constituency boundaries mean that these electors are in the Linlithgow and East Falkirk Constituency and not the Falkirk Constituency with the immediately surrounding area in Ward 8 – Lower Braes. Maddiston Community Centre has satisfactory parking, disabled access and facilities.

No change is proposed.

Ward 9 – Upper Braes

Polling District LE900 – Whitecross

Polling Place – Whitecross Power Station

This was a new Polling Place for the local government elections in 2012 and it generated no adverse comments. It has satisfactory parking, disabled access and facilities.

No change is proposed.

Polling District LE905 – Maddiston South

Polling Place – Maddiston Old Folks Hall

Polling District LE921 – Maddiston

Polling Place – Maddiston Community Centre

While there are no particular issues with Maddiston Old Folks Hall, it is located close to Maddiston Community Centre which has better facilities, parking and disabled access. It is therefore proposed to amalgamate these two Polling Districts and to use Maddiston Community Centre as the Polling Place.

Polling District LE911 – Wallacestone

Polling Place – Reddingmuirhead Community Centre

This Polling Place is shared with Polling District LE836. There are no suitable premises within this Polling District, so the existing Polling Place lies outwith its boundaries. There have been no issues with its location at previous elections. The Polling Place has suitable parking, good disabled facilities and space for two separate Polling Stations, each covering separate Polling Districts.

No change is proposed.

Polling District LE916 – Rumford

Polling Place – Brightons Community Centre

Polling District LE925 – California

Polling Place – California Community Centre

Polling District LE930 – Standburn

Polling Place – Drumbowie Primary School

Polling District LE935 – Avonbridge

Polling Place – Avonbridge Community Hall

Polling District LE940 – Limerigg

Polling Place – Limerigg Community Hall

Polling District LE945 – Slamannan

Polling Place – Slamannan Community Centre

The six Polling Places listed above were all used in the local government elections in 2012 with no adverse comments received. All have satisfactory parking, disabled access and facilities. No changes are proposed.

Polling District FE950 – Lathallan

Polling Place – Brightons Community Centre

This Polling District consists of the small area which it is necessary to keep separate as the current Westminster constituency boundaries mean that these electors are in the Falkirk Constituency and not the Linlithgow and East Falkirk Constituency with the immediately surrounding area in Ward 9 – Upper Braes. Although there are currently no electors in this area, it is proposed that any future electors should vote at Brightons Community Centre, along with Polling District FE955 since that would be the correct Polling Place for all elections. Brightons Community Centre has suitable parking, disabled access and facilities.

No change is proposed.

Polling District FE955 – Brightons South

Polling Place – Brightons Community Centre

Polling District FE960 – Shieldhill

Polling Place – Welfare Hall

Both of these Polling Places have satisfactory parking, disabled access and facilities.

No change is proposed.

Locations of Polling Stations within Polling Places

The table in the appendix below provides a summary of the locations of the polling stations within the current polling places. The number of polling stations varies depending on the type of electoral event and anticipated turnout. The table therefore indicates both the lowest and highest number of polling stations expected to be located within each polling place, based on statistics over recent years and looking ahead to future electoral events.

Mary Pitcaithly
Returning Officer

October 2013

APPENDIX

POLLING PLACES AND LOCATION OF POLLING STATION(S)

POLLING PLACE	LOCATION OF STATION(S)	MIN	MAX
Airth Community Hall	Large hall to the left off the main entrance.	1	2
Allandale Bowling Club	Large hall to the left off the main entrance.	1	1
Antonine Primary School	Mobile classroom situated in the playground.	1	1
Archibald Russell Centre	Large hall off the main communal area.	2	3
Avonbridge Community Hall	Hall leading from the main entrance.	1	1
Bainsford Community Centre	Large hall leading from the main entrance.	3	4
Bankier Community Centre	Large hall leading from the main entrance.	2	3
Bantaskin Primary School	Main hall located off the main school foyer.	2	3
Blackness Community Hall	Hall leading from the main entrance.	1	1
Bo'ness Recreation Centre	Main recreation hall situated on the ground level.	2	3
Bo'ness Town Hall	Room to the right accessed from the main entrance.	1	1
Bonnybridge Community Centre	Lounge to the right leading from main reception area.	2	3
Bonnybridge Primary School	Large hall to the left off a small foyer area/main entrance.	2	4
Bothkennar Community Hall	Hall leading from the main entrance.	1	1
Bowhouse Community Centre	Large hall to the right off main foyer/entrance.	3	4
Brightons Community Centre	Large hall leading from main entrance.	2	4
California Community Centre	Main hall leading from main entrance.	1	1
Camelon Education Centre	Large hall to the rear of the main entrance.	1	2
Carmuir Primary School	Main hall located close to the main entrance.	1	2
Carron Primary School	Open area located close to the school's foyer/entrance. 2 classrooms are also used and these are located off the open area.	3	4

Carronshore Sports and Social Hall	Main hall leading from the main entrance.	2	3
Cowdenhill Community Centre	Two separate rooms which are located to the left and right side off the main entrance foyer.	2	3
Dalgrain Community Hall	Main hall leading from main entrance.	1	1
Dawson Centre	Main hall to the left off the main entrance.	1	2
Deanburn Primary School	Main recreation hall.	2	3
Denny Westpark Church Hall	Main hall to right and rear leading from the main entrance.	2	3
Dobbie Hall	Large hall leading from the main entrance.	2	4
Drumbowie Primary School	Area accessed via the disabled entrance which is located to the left and rear of the school.	1	1
Dundas Resource Centre	Hall to the right leading from the main entrance.	1	2
Dunipace Church Hall	Large hall leading from the main entrance.	2	3
Easter Carmuir Primary School	Main hall which is located directly off a disabled access entrance. There is also parking facilities adjacent to this entrance.	2	3
Fankerton Village Hall	Main hall leading from the main entrance.	1	1
Glen Village (Mobile Unit)	Mobile Unit	1	1
Grange Community Centre	Open area off the reception/main entrance used in 2012. Staff requested that the GP1 room be considered.	1	1
Grangemouth Town Hall	Large hall leading from the main entrance.	2	4
Greenbank Court Meeting Room	Social room located on the ground floor.	1	1
Greenpark Community Centre	Main hall leading from the main entrance.	2	3
Hallglen Sports Centre	Main hall leading from the main Church entrance.	2	3
Kinnaird Primary School	Main recreation hall.	2	2
Kinneil Bowling Club	Main hall leading from entrance.	1	1
Kinneil Primary School	2 classrooms located in the infant area.	2	3

Larbert Village Primary School	Main hall used in 2012 but classrooms have been used in the past.	3	4
Laurieston Community Hall	Hall leading from entrance.	1	2
Laurieston Primary School	Main hall located close to the main foyer/entrance.	1	2
Leishman Tower Club Room	Club room located on the ground level.	1	2
Limerigg Community Hall	Large hall leading from main entrance.	1	1
Maddiston Community Centre	Main hall leading from the main reception/entrance.	2	3
Maddiston Old Folks Hall	Main hall to the right leading from the main foyer/entrance.	1	1
Nethermains Primary School	Games hall to the left leading from the main foyer area.	3	4
Newlands Community Centre	Large hall leading from main entrance.	3	4
Polmont Sports Centre	Main games hall.	2	2
Reddingmuirhead Community Hall	Main hall to the right leading from the main entrance.	1	2
St Francis Xavier Church Hall	St Martha's hall to the right leading from the main foyer area/entrance.	1	2
Salvation Army Hall, Bo'ness	Room to the right leading from the main foyer area/entrance.	1	1
Shieldhill Welfare Hall	Main hall leading from main entrance.	2	2
Slamannan Community Centre	Hall to the left and rear leading from main entrance.	1	2
Stenhouse & Carron Parish Church Hall	Church hall adjacent to the main church.	2	2
Stenhousemuir Primary School	Main hall located to the left leading from the main entrance.	3	6
Tamfourhill Community Centre	Hall to the left leading from the main entrance.	1	2
Thornhill Community Centre	Large hall to the right and rear accessed from the main entrance.	3	4
Torwood Mobile Unit	Mobile Unit.	1	1

Tryst Community Centre	Main hall located to the rear accessed from the main foyer area.	1	2
Westfield Community Centre	Large hall to the rear accessed from the main entrance.	1	2
Westquarter Community School Project	Café/hall to the left leading from main entrance.	1	2
Whitecross Power Station Youth Club	Open area access from main entrance.	1	1
Woodlands Games Hall	Large games hall to the right and rear accessed from the main entrance.	1	3
Carron and Carronshore Bowling Club Beaumont Drive Carron	Large hall leading from the main entrance.	The number of electors will be dependent on the outcome of the review process.	
Free Church of Scotland Hall Beaumont Drive Carron	Open area leading from the main entrance. Additional hall to the rear of this open area.		
Larbert Bowling Club Pretoria Road Larbert	Large hall leading from the main entrance.		
Laurieston Parish Church Hall Hornbeam Crescent Laurieston	Large hall leading from the main entrance.
