

AC18. REVIEW OF CORPORATE RISK REGISTER

The Committee considered a report by the Director of Development Services on the review of the Corporate Risk Register.

A review of the Corporate Risk Register had been undertaken and an updated risk register had been developed, with the top 10 risks unchanged. It was now intended that Service Risk Registers would be reviewed and outcomes used to inform future iterations of the high level corporate risk register.

In regard to the risk associated with failure to properly manage assets, members sought an update on the Asset Register.

Members also sought further information and questioned proposals to provide training for members of the Committee.

Decision

The Committee noted the report.
