

P62. WEST CARRON LANDFILL, STENHOUSE ROAD, CARRON

The Committee considered a report by the Director of Development Services on the West Carron Landfill site which is currently regulated by the Scottish Environmental Protection Agency (SEPA) under the Pollution, Prevention and Control (PPC) regime. The company holding the permit, Central Demolition, is the landfill operator and owner of the site. The report provided an update for the Committee on the planning status of the site.

Decision

The Committee agreed that planning enforcement would not be pursued at this stage while there remained the prospect of the submission of a planning application noting that officers would bring a report to Committee following the Pre-Application Consultation process to be undertaken by the applicant.
