

Infill Development and Plot Subdivision

- 4.30** The quality of residential areas can often be threatened by inappropriate infill development, sometimes termed ‘town cramming’. Infill proposals, particularly where they involve the subdivision of the curtilage of existing houses, frequently take little account of the overall grain of the surrounding area, or of the setting and amenity of neighbouring properties. Policy SC8 seeks to prevent insensitive infill whilst allowing development where a legitimate opportunity exists and can be integrated successfully into the urban fabric.

4.31

SC8 INFILL DEVELOPMENT AND SUBDIVISION OF PLOTS

Proposals for the erection of additional dwellinghouses within the curtilage of existing properties or on small gap sites will only be considered favourably where:

- (1) the scale, density, disposition and design of the proposed houses respect the architectural and townscape character of the area;
- (2) adequate garden ground can be provided to serve the proposed houses without an unacceptable impact upon the size or functioning of existing gardens;
- (3) adequate privacy will be afforded to both the proposed houses and neighbouring properties;
- (4) the proposal would not result in the loss of features such as trees, vegetation or walls, such that the character or amenity of the area would be adversely affected;
- (5) the proposed vehicular access and other infrastructure is of an adequate standard; and
- (6) the proposal complies with other Local Plan policies.

Extensions and Alterations to Residential Properties

- 4.32** There is a need to ensure that alterations and extensions to residential properties do not, individually or cumulatively, detract from the environment of residential areas. Policy SC9 sets out the key considerations in determining the acceptability of proposals, dealing with the impact of changes on the integrity of the property itself, on the amenity of neighbouring properties and on the character of the area as a whole. Detailed guidance may be found within the Council’s SPG Note on House Extensions and Alterations.

4.33

SC9 EXTENSIONS AND ALTERATIONS TO RESIDENTIAL PROPERTIES

Extensions and alterations to residential properties will be permitted where:

- (1) the scale, design and materials are sympathetic to the existing building;
- (2) the location and scale of the extension or alterations will not significantly affect the degree of amenity, daylight or privacy enjoyed by neighbouring properties; and
- (3) it will not result in overdevelopment of the plot, thereby giving rise to adverse impacts on the functioning of garden ground, or the unacceptable loss of off-street parking.

4.34

Creating and Maintaining Residential Amenity - Actions and Indicators

Actions:

- Prepare development briefs for outstanding housing sites

Indicators:

- Quality as assessed through periodic audit of major built developments against sustainable development principles
