Proposal : Extension to Equestrian Centre to Provide Additional Facilities
Location : Land to the South of the Wester Shieldhill, Falkirk.
Applicant : Mr S Aitken

I refer to your consultation notice received on 04 July 2008 concerning the above application and would comment as follows:-

This site has been subject to previous applications and permission was granted for the Equestrian Centre under application F/2001/0603. The Equestrian Centre has been built and an adequate sized car parking area formed, but several of the other conditions have not yet been met.

From a roads point of view we have no objection to the present application but would ask that the previous outstanding conditions, (3) & (5), be re-applied to this application.

Regards.
