

### **FC63. Motion**

The Provost ruled that the following motion related to matters within the remit of the Executive and, having consulted with the Leader of the Council and the Leader of the Opposition, and in accordance with Standing Order 31.1, he was not of the opinion that special circumstances existed which would require an exception to be made to the general rule.

The motion was:-

That officers be instructed to obtain estimated costs of relevant STAG/appraisal work that would be required to investigate transport issues in the Bonnybridge area and possible solutions, including a potential railway station in High Bonnybridge, and report back.

That the Leader of the Council write to the relevant Minister asking that if a STAG report was produced that was favourable to a station being reinstated in Bonnybridge if the Scottish Government would positively consider this.

Accordingly, this motion stood referred to the Executive.
