**Subject:** Planning Application Appeal Ref: P/16/0721/FUL/JM

With regard to the aforementioned planning application I would like to submit both information and opinion pertaining to the previous.

The appeal made by Mr John Thomson of 4 Kinglass Court fails to mention that he has already erected a pigeon loft and cleared the site of screening trees in contravention to both the previous agreement referred to in the title deeds and also in flagrant disregard of the decision made by Falkirk Council.

This displays an entirely disrespectful attitude towards the decision of Falkirk Council and also the concerns of neighbours who are directly affected by the erection of this building and the destruction of the surrounding environment.

His letters of support are entirely irrelevant to the planning application and his reference to health issues have failed to take into account the potential harm caused by the animals he is housing to others. He has now been released these animals into the surrounding residential area at regular intervals creating a nuisance, mess and health hazard. This is unacceptable.

Furthermore, if the decision is upheld I would like to be kept informed of the procedures and progress of enforcement which will ensure that he returns the site to its original state.

Regards,

Donna Murphy
