

The background of the slide features a large, light blue crest of Fife Council. The crest includes a crown at the top with four thistles, a shield with a cross and four quadrants, and a banner at the bottom with the motto 'A'NE FOR A'.

# **AGENDA ITEM**

**7**

**Demolition of Public House (Sui Generis) and Erection of Building for Retail Use (Class 1) with Associated Infrastructure, Including ATM Machine at 175 Dean Road, Bo'ness, EH51 0HG for Pittsburgh Fife Ltd – P/17/0590/FUL**

**FALKIRK COUNCIL**

**Subject:** DEMOLITION OF PUBLIC HOUSE (SUI GENERIS) AND  
ERECTION OF BUILDING FOR RETAIL USE (CLASS 1)  
WITH ASSOCIATED INFRASTRUCTURE, INCLUDING ATM  
MACHINE AT 175 DEAN ROAD, BO'NESS, EH51 0HG, FOR  
PITTSBURGH FIFE LTD - P/17/0590/FUL  
**Meeting:** PLANNING COMMITTEE  
**Date:** 24 January 2018  
**Author:** DIRECTOR OF DEVELOPMENT SERVICES

**Local Members:** Ward - Bo'ness and Blackness

Councillor David Aitchison  
Councillor Lynn Munro  
Depute Provost Ann Ritchie

**Community Council:** Bo'ness

**Case Officer:** Julie Seidel, (Planning Officer), Ext. 4880

**1. DESCRIPTION OF PROPOSAL / SITE LOCATION**

- 1.1 This application relates to the demolition of a public house and the erection of a Class 1 shop and associated infrastructure. The site forms part of a small cluster of commercial properties fronting Dean Road, within a wider, predominantly residential area. The public house has been vacant for a long period of time.

**2. REASON FOR COMMITTEE CONSIDERATION**

- 2.1 The application requires to be referred to the Planning Committee for determination, as it was called in by Depute Provost Ann Ritchie and Councillor David Aitchison.
- 2.2 Depute Provost Ann Ritchie called in the application in relation to over provision, traffic problems and car parking issues.
- 2.3 Councillor David Aitchison called in the application in relation to concerns about the demolition of the public house and the stability of remaining buildings.

**3. SITE HISTORY**

- 3.1 A planning application (Ref: P/15/0293/FUL) for the demolition of the public house and the erection of a Class 1 Shop was withdrawn on 30 June 2015. This application was made by Punch Taverns, not the applicant for this current application.

- 3.2 Planning permission (Ref: P/17/0106/FUL) for the change of use of a vacant betting office to a Class 3 café (in part of the building adjoining the application site), was granted on 21 April 2017.

#### **4. CONSULTATIONS**

- 4.1 The Council's Roads Development Unit has no objection to the proposed development.
- 4.2 The Council's Environmental Protection Unit has no objection to the proposed development, subject to planning conditions relating to ground contamination and noise.
- 4.3 Falkirk Community Trust's Museum Services comment that the application site lies adjacent to the line of the Rampart of the Antonine Wall, World Heritage Site. As such it is recommended that the application be considered in relation to the Supplementary Planning Guidance 'Frontiers of the Roman Empire (Antonine Wall) World Heritage Site SPG' and it is necessary for the applicant to provide information concerning the survival or lack of Roman stratigraphy.
- 4.4 Historic Environment Scotland has no objection.
- 4.5 Scottish Water has no objection.

#### **5. COMMUNITY COUNCIL**

- 5.1 The Bo'ness Community Council did not make comment.

#### **6. PUBLIC REPRESENTATION**

- 6.1 In the course of the application, 71 contributors (70 objectors and 1 representation) submitted letters to the Council. The salient issues are summarised below.
- No need for another shop in Bo'ness;
  - The shop would have an unacceptable impact on the business of existing shops in the area and result in job loss;
  - There are plenty of vacant shops in town;
  - The road and access are dangerous, in particular for school children;
  - The development will cause traffic generation from customers and deliveries and cause congestion;
  - The development would cause disruption for surrounding residents and business;
  - There would be an unacceptable impact on the adjoining hairdresser. There should be before and after surveys of the adjoining property, at cost to the developer;
  - The local community should have a say;
  - The pub should be retained;
  - The application site building is linked to the two adjacent buildings by electrics and the roof structure. Concern is raised in relation to damage to neighbouring properties;
  - The development will block off the shared access to the front of the site; and

- 6.2 A petition with 348 signatures was also received by the Council raising issues in relation to road safety, parking, impact on local businesses and general opposition to a mainstream supermarket being developed.

## **7. DETAILED APPRAISAL**

Under section 25 of the Town and Country Planning (Scotland) Act 1997, as amended, the determination of planning applications for local and major developments shall be made in accordance with the Development Plan unless material considerations indicate otherwise.

Accordingly,

### **7a The Development Plan**

- 7a.1 The Falkirk Local Development Plan was adopted on 16 July 2015. It includes a number of supplementary guidance documents which also have statutory status as part of the Development Plan. The proposed development was assessed against the following policy or policies:

- 7a.2 Policy D07 'Antonine Wall' states:

*The Council will seek to retain, protect, preserve and enhance the Antonine Wall, its associated archaeology, character and setting. Accordingly:*

- 1. There will be a presumption against development which would have an adverse impact on the 'Frontiers of the Roman Empire (Antonine Wall) World Heritage Site' as defined on the Proposals Map;*
- 2. There will be a presumption against development within the 'Frontiers of the Roman Empire (Antonine Wall) World Heritage Site' buffer zones, as defined on the Proposals Map, which would have an adverse impact on the Site and its setting, unless mitigating action to the satisfaction of the Council in consultation with Historic Scotland can be taken to redress the adverse impact, and there is no conflict with other LDP policies; and*
- 3. Supplementary Guidance SG07 'Frontiers of the Roman Empire (Antonine Wall) World Heritage Site' will be applied in assessing development proposals along the line, or affecting the setting, of the Antonine Wall.*

- 7a.3 The site is adjacent to the line of the rampart of the Antonine Wall World Heritage Site (WHS). The proposed building would be on the general footprint of the existing public house and the frontage would be maintained as open. It is considered that the proposed development would not have an adverse impact on the WHS, subject to a planning condition requiring a scheme of archaeological investigation. The application accords with policy D07 'Antonine Wall'.

7a.4 D04 – ‘Low and Zero Carbon Development’ states:

1. *All new buildings should incorporate on-site low and zero carbon-generating technologies (LZCGT) to meet a proportion of the overall energy requirements. Applicants must demonstrate that 10% of the overall reduction in CO2 emissions as required by Building Standards has been achieved via on-site LZCGT. This proportion will be increased as part of subsequent reviews of the LDP. All proposals must be accompanied by an Energy Statement which demonstrates compliance with this policy. Should proposals not include LZCGT, the Energy Statement must set out the technical or practical constraints which limit the application of LZCGT. Further guidance will be contained in Supplementary Guidance SG15 'Low and Zero Carbon Development'. Exclusions from the requirements of this policy are:*
  - *Proposals for change of use or conversion of buildings;*
  - *Alterations and extensions to buildings;*
  - *Stand-alone buildings that are ancillary and have an area less than 50 square metres;*
  - *Buildings which will not be heated or cooled other than by heating provided solely for the purpose of frost protection;*
  - *Temporary buildings with consent for 2 years or less; and*
  - *Where implementation of the requirement would have an adverse impact on the historic environment as detailed in the Energy Statement or accompanying Design Statement.*
2. *The design and layout of development should, as far as possible, seek to minimise energy requirements through harnessing solar gain and shelter;*
3. *Decentralised energy generation with heat recycling schemes (combined heat and power and district heating) will be encouraged in major new developments, subject to the satisfactory location and design of associated plant. Energy Statements for major developments should include an assessment of the potential for such schemes.*

7a.5 It is appropriate to progress the application with a planning condition in relation to low and zero carbon generating technologies, in accordance with policy D04 ‘Low and Zero Carbon Development’.

7a.6 Policy D06 – ‘Shopfronts’ states:

*The design of new or altered shopfronts should be well-proportioned and sympathetic to the character of the building of which they are part, as specified within Supplementary Guidance SG04 'Shopfronts'.*

7a.7 The design of the shopfront would be well proportioned and sympathetic to the character of the building, in accordance with policy D06 ‘Shopfronts’.

7a.8 Policy TC03 – ‘Retail and Commercial Leisure Development’ states:

1. *Retail development proposals in excess of 1,000 sq.m. gross floorspace, and significant commercial leisure development, should be located within the network of centres, and should be of a scale and type consistent with the role of the centre in the network and commensurate with the local catchment. Proposals for significant retail and commercial leisure development at out-of-centre locations will be assessed in relation to the following:*
  - *The impact on the vitality and viability of other identified centres, or proposals for their improvement;*
  - *The need for the development;*
  - *The proposal’s ability to meet the sequential approach; and*
  - *The accessibility of the proposal by a choice of means of transport, and the impact on the number and length of car trips.*
2. *Retail development proposals of 1,000 sq.m. gross floorspace or less, serving neighbourhood needs, will be permitted more generally within the urban area, subject to other LDP policies.*
3. *Motor vehicle showrooms will be permitted within the economic development sites identified in the Site Schedule, or other business and industrial areas, provided access, servicing and any associated industrial processes can be accommodated without detriment to residential amenity, the functioning of the road network, or the operation of adjacent businesses.*
4. *Retail and commercial leisure development must demonstrate a high level of design quality, compatibility with adjacent land uses and an ability to integrate with any centre of which it is to form part.*

7a.9 The application relates to a proposed retail unit of less than 1,000 sqm, serving neighbourhood needs. As such, the application is generally supported by policy TC03 ‘Retail and Commercial Leisure Development’.

**Supplementary Guidance forming part of Local Development Plan**

7a.10 The application accords with the guidance contained in SG04 (Shopfronts) and SG15 (Low and Zero Carbon Development).

7a.11 Accordingly, the application accords with the Falkirk Local Development Plan

**7b Material Considerations**

7b.1 The material consideration to be assessed are the public representations, the applicant’s supporting statement, non-statutory supplementary planning guidance, additional planning considerations and the consideration of the site in relation to coal mining legacy.

**Assessment of Public Representations**

7b.2 The viability and impact on existing businesses is not a material planning consideration for a neighbourhood shop of the size proposed.

7b.3 The availability of existing shop units in the surrounding area is not a material planning consideration. It should be noted that the application site relates to an existing vacant commercial unit and its redevelopment is considered reasonable.

- 7b.4 The access and parking proposals are acceptable, as confirmed by the Council's Roads Development Unit by consultation.
- 7b.5 It is accepted that there may be some disruption at the demolition and construction phase of development, particularly for the neighbouring property. However this is not a material reason to refuse planning permission. The applicant has submitted a method statement for the demolition of the building and the aftercare of the site. The treatment of the mutual gable can be considered as part of the Building Warrant process.
- 7b.6 The local community have made comment in relation to the application, by way of submitting individual representations and a petition to the Council.
- 7b.7 The proposed development does not intend to block off the shared access to the front of the building. This was raised as a result of the line of the Antonine Wall being shown on the proposed block plan, which caused confusion. The applicant has submitted an amended block plan to make it clear that the frontage will be kept open.

### **Supporting Statement**

- 7b.8 The applicant has submitted a Supporting Statement raising the following issues:
- The site was marketed as a public house for over 18 months, but failed to sell. There has been a substantial reduction in public bar trade in Scotland with on average 7 pubs closing per week and there are other public houses and drinking premises within walking distance of the site. A public house at 175 Dean Road was not a viable business, and it will not re-open whatever the outcome of this planning application. Approval of the application should not therefore be seen as resulting in the loss of a pub. That has happened as a result of a national trend and local circumstances.
  - The building is in reasonable condition, however, the shape and room division doesn't suit the open plan requirements of a convenience store. The building has steps up to its entrance and as such there is a fundamental problem with level access. Retaining the existing building isn't an option and the proposed building with associated parking and landscaping would be more attractive than existing.
  - A Demolition Statement has been provided in relation to concerns about the party wall. The applicant has informed the adjoining neighbour that they will make contact again, before site works commence to explain exactly what will happen and when, to make sure they can overcome any concerns. The 'party' wall is not shared. There are two gable walls and once the building is demolished the applicant has agreed to finish the neighbour's gable wall with a material agreed by both parties.
  - The proposed tenant is 'Mccolls', who currently operate from a small store adjacent to the application site. The proposed shop will allow a greater product range for the existing local shop keeper.
- 7b.9 The points made in the Supporting Statement are noted. It is considered that the Supporting Statement addresses comments made by representation.

## **Supplementary Planning Guidance**

- 7b.10 Frontiers of the Roman Empire (Antonine Wall) World Heritage Site (WHS) Supplementary Planning Guidance (SPG), provides guidance in relation to the significance of the Antonine Wall and criteria which will be applied in determining planning applications along the line of the wall and within the setting of the World Heritage Site.
- 7b.11 The development would not comprise the Outstanding Universal Value for which the Antonine Wall was inscribed as a WHS. It is considered that the proposed development would not destroy or lead to damage of any archaeological remains, subject to a planning condition, requiring a scheme of archaeological investigation. The proposed development would not interrupt key views to, from or within the WHS; change the character of the landscape in or around the WHS; reduce people's appreciation of the WHS or negatively affect the quality or significance of the WHS.
- 7b.12 The application accords with guidance contained in the Frontiers of the Roman Empire (Antonine Wall) World Heritage Site SPG.

## **Additional Planning Considerations**

- 7b.13 The application site was marketed extensively. It is acknowledged that it would have been preferable to retain the existing building, as it is of some modest architectural and local historical interest, however the finished floor level of the building (steps up into the building) made the redevelopment of the existing building unfeasible and led to this planning application for its demolition and redevelopment being submitted.
- 7b.14 The design of the proposed building is contemporary and it is considered that it would sit comfortably within the site, on a similar footprint to the existing public house and in relation to neighbouring commercial properties, a hairdressers and vacant betting office with planning permission for a Class 3 Café. The applicant has amended the site plan to show the frontage being kept open. The applicant has also submitted a method statement for demolition of the building. The submitted details are considered acceptable.

## **Consideration of the Site in relation to Coal Mining Legacy**

- 7b.15 The application site falls within or is partially within the Development Low Risk Area as defined by the Coal Authority. However, as coal mining activity was undertaken at depth, no recorded surface hazards currently exist which could pose a risk to new development. Unrecorded coal mining related hazards could still exist. It is not necessary to consult the Coal Authority on any planning applications which fall within the Development Low Risk Area.
- 7b.16 Where planning permission is to be granted, an appropriate informative note appears on the Decision Notice.

## **7c Conclusion**

- 7c.1 The application is assessed as being in accordance with the Falkirk Local Development Plan. Third party representations are assessed and addressed within the body of this report. Issues raised through consultation can be dealt with by condition. There are no material planning considerations to merit refusal of the application.

## **8. RECOMMENDATION**

- 8.1 **It is recommended that the Planning Committee grant planning permission subject to the following conditions:**

1. **The development hereby approved shall be implemented in accordance with the plan(s) itemised in the informative below and forming part of this permission unless a variation is required by a condition of the permission or a non-material variation has been agreed in writing by Falkirk Council as Planning Authority.**
2.
  - i. **No development shall commence on site unless otherwise agreed with the planning authority until a contaminated land assessment has been submitted and approved. The assessment must determine the nature and extent of any contamination on the site, including contamination that may have originated from elsewhere. Any potential risks to human health, property, the water environment and designated ecological sites should be determined. The contaminated land assessment must be approved in writing by the Planning Authority.**
  - ii. **Where contamination (as defined by Part IIA of the Environmental Protection Act 1990) is encountered, a detailed remediation strategy should be submitted to the Planning Authority demonstrating that the site will be made suitable for its intended use by removing any unacceptable risks, caused by the contamination. The scheme must be approved in writing by the Planning Authority.**
  - iii. **Prior to the commencement of development of the site, the remediation works must be carried out in accordance with the terms and conditions of the remediation scheme, and as agreed by the Planning Authority. No part of the development shall be occupied until a remediation completion report/validation certificate endorsed by the relevant parties have been submitted to and agreed in writing by the Planning Authority.**
  - iv. **If unexpected contamination is found after development has begun, development of the affected part of the site must stop. The developer must notify the Planning Authority immediately and carry out a contaminated land assessment, and undertake any necessary remediation works, before development of the affected part of the site may continue.**

3. Any plant or equipment associated with the completed development should be sited and operated in such a manner as to prevent any noise nuisance occurring at nearby dwellings. Noise associated with the completed development shall not give rise to a noise level, assessed with the windows open, within any dwelling or noise sensitive buildings in excess of the equivalent to Noise Rating Curve (N.R.C.) 35 between 07.00 hours and 22.00 hours and N.R.C. 25 at all other times.
4. No development shall take place within the site until a scheme of archaeological investigation (including a timetable) has been submitted to and approved in writing by the Planning Authority
5. The development hereby approved will not be occupied or brought into use until the following documents have been submitted to and approved in writing by the Planning Authority:
  - i) a copy of the appropriate sustainability label (i.e. at least Bronze Active); and
  - ii) a Statement of Conformity which confirms that 10%, of the required CO2 emissions reduction is achieved through the installation of low and zero carbon generating technologies.

Details and a timetable of how this is to be achieved, including details of physical works on site, shall be submitted to and approved in writing by Falkirk Council. The approved details shall be implemented in accordance with the approved timetable and retained as operational thereafter, unless otherwise agreed in writing by the Local Planning Authority.

**Reasons:**

1. As these drawings and details constitute the approved development.
2. To ensure the ground is suitable for the proposed development.
3. To ensure that the occupants of adjacent premises are protected against excessive noise intrusion.
4. To ensure that any archaeological remains are safeguarded.
5. To ensure the development achieves the required CO2 emission reduction as a result of development.

**Informatives:**

1. In accordance with section 58(1) of the Town and Country Planning (Scotland) Act 1997 (as amended), this permission lapses on the expiration of a period of 3 years beginning with the date on which this permission is granted unless the development to which this permission relates is begun before that expiration.
2. For the avoidance of doubt, the plan(s) to which this decision refer(s) bear our online reference number(s) 01, 02, 03B, 04, 05 and Supporting Documents.

3. The applicant shall ensure that noisy work which is audible at the site boundary shall **ONLY** be conducted between the following hours:

<b>Monday to Friday</b>	<b>08:00 - 19:00 Hours</b>
<b>Saturday</b>	<b>08:00 - 13:00 Hours</b>
<b>Sunday / Bank Holidays</b>	<b>No noise audible at site boundary</b>

**Deviation from these hours of work is not permitted unless in emergency circumstances and with the prior approval of the Environmental Protection Unit.**

4. It is an offence to display without consent signs which require consent under the Town and Country Planning (Control of Advertisements) (Scotland) Regulations 1984; you may be liable to a fine of up to £200 and £20 per day in the case of a continuing offence.

.....
