Comment Details

Commenter Type: Other Organisations / Bodies

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: Although the floor area of the intended extension is not excessive for the plot size, the design of the first floor of the extension protrudes above the ridge line of the existing cottage. This is not appropriate and compromises the appearance of the building from the street. A more modest solution should be sought, which avoids the excessive height and the unfortunate mansard windows towards the rear.
