

Falkirk Townscape Heritage Initiative Steeple End Use Business Case and
Public Realm Update

Falkirk Council

Title: Falkirk Townscape Heritage Initiative - Steeple End Use

Business Case and Public Realm Update

Meeting: Executive

Date: 27 November 2018

Submitted By: Director of Development Services

1. Introduction

1.1 This report gives an update on the Falkirk Townscape Heritage Initiative (THI). It presents the business case prepared by Falkirk Community Trust (FCT) for the future use of the Steeple, gives an update on the delivery of the town centre public realm works and summarises achievements of the THI.

2. Recommendation(s)

2.1 It is recommended that the Executive:

- 1) approves the business plan prepared by Falkirk Community Trust and notes the approval of the Falkirk Common Good Committee for commitment of additional revenue budget of up to £6,410 per annum over the next two years to support delivery of a viable future use of the Steeple as set out in section 5 of this report.
- 2) notes the outcome of delivery of the THI public realm works including the support provided to local town centre businesses directly affected by the works.
- 3) notes achievements delivered by the Falkirk THI project between 2013 and 2018 and results of the public perception survey.

3. Background

- 3.1 The five year Falkirk THI programme will conclude in November 2018. The Falkirk THI has principally been funded by the Heritage Lottery Fund and Historic Environment Scotland with grant awards of £3.5m. A full update report on progress of the THI and grant awards was presented to Executive June 2017. The report considered three end use options for the recently restored Falkirk Steeple. The options presented opportunities for new use of the vacated space following the box office closure and restoration.
- 3.2 Executive approved Option 2 whereby Falkirk Community Trust (FCT) retains its lease with Falkirk Council and puts in place an agreement with the Falkirk Local History Society (FLHS) for this group to operate the Steeple as a local heritage space and attraction. This was subject to submission of a viable business case for Executive approval.

3.3 The report also updated Executive on phased delivery of the public realm works and the anticipated disruption. With contract works now concluded and in a defects period, further information is provided on consultation and support for businesses and residents in affected parts of the town.

4. Falkirk THI Outcomes and Perception Survey Results

- 4.1 The overall aim of Falkirk THI has been to regenerate the historic town centre by helping the community carry out conservation-standard repairs and improvements to traditional properties, by means of grant assistance.
- 4.2 Over a five year delivery period the aims of the Falkirk THI have been achieved by:
 - Providing grant-funding to over 80 individual properties across over 30 different buildings.
 - Delivering conservation standard improvements to all 11 town centre 'Priority Projects'.
 - Restoring or improving 15 shopfronts.
 - Bringing 8 longstanding empty town centre units back into use, following building or shopfront repairs.
 - Improving over 6,500sqm of public realm with heritage standard materials such as Caithness paving and granite kerbs.
 - Engaging with over 11,500 visitors at heritage exhibitions, 1,500 heritage event participants and 390 school pupils, supported by the development of a suite of heritage guidance documents, social media presence, training of heritage guides and production of a heritage app.
 - Providing heritage construction training opportunities for over 100 contractors, specifiers, school pupils, property owners and homeless groups.
- 4.3 Faced with negative feelings from the public about the decline of the town centre, the THI team worked hard to convince property owners to apply for a grant and commit to improving their properties.
- 4.4 Every street within the THI/Conservation Area Regeneration Scheme (CARS) area has had a shopfront improvement project carried out on it. As a legacy, this creates an excellent example to inform future change. In particular, local planning officers can use the projects as best-practice examples for the conservation area, where previously there were very few examples.
- 4.5 Twenty seven young vulnerable people from Loretto Care, who face homelessness issues, attended THI 'construction crafts taster courses'. As a direct result of this, 12 have gone on to apply for full-time education courses.
- 4.6 At 199A 201 High Street, two longstanding vacant commercial premises owned by Falkirk Council have been repurposed into a community hub. As a direct result of THI/CARS funding a sustainable, active travel hub now provides a resource for the entire community to use.

- 4.7 In recognition of the above achievements the Falkirk THI was shortlisted from towns across Scotland and Highly Commended by the Scottish Civic Trust in the 'Best Rescue of an Historic Building or Place over £2m' category at the recent Scottish Heritage Angel Awards 2018
- 4.8 To mark the end of 5 years of restoration work in the town centre, Falkirk Townscape Heritage Initiative (THI) held a series of activities on the High Street over Friday 3rd and Saturday 4th August. During this time perception surveys were undertaken with members of the public.
- 4.9 The full survey results are contained in Appendix 2. Core feedback from 157 respondents highlighted:
 - 86% either agreed or strongly agreed that the THI work has made the town a better place to live, work or visit than 5 years ago.
 - 89% stated that their perception of the town had improved, following the THI works.
 - 89% stated the public realm works have improved the appearance of the town centre and made it more attractive
 81% indicated that the public realm works had made the town centre more pedestrian friendly
 - 72% of respondents indicated that they did not realise the town centre was a Conservation Area
 - 94% of respondents either strongly agreed or agreed that having Conservation Area Management Plan guidelines in place is good for preserving the external appearance of the town centre
 - 68% of respondents have visited exhibitions hosted by the Falkirk THI An evaluation report on the work of the THI is being compiled at present and its results will be disseminated to elected members, THI partners and the wide community.

5. Falkirk Steeple – Business Case

- 5.1 One of the priority projects delivered by the Falkirk THI is the renovation of the Steeple which completed in May 2017. The Steeple is a Common Good property, maintained by the Council from the Common Good Account and leased to FCT. The costs of creating a future use for the Steeple are not covered in the THI action plan and funding is required for future maintenance of the property for the period beyond the timescales of the THI project. As a condition of approving the use of the Steeple as a heritage space and attraction, Executive requested the submission of a viable business case.
- 5.2 The business case develops upon the restoration works that have been delivered by the Falkirk THI and gives opportunity for access to all the heritage spaces in the building. It will form a significant legacy of the THI and a new focal point within the town centre. FCT has developed this initiative in partnership with Falkirk Local History Society (FLHS).
- 5.3 Appendix 1 sets out the business case prepared by the Trust for the delivery of a 'Steeple History Centre' to provide local heritage space with displays and exhibits, a resource centre for history and heritage and an information point for local tourism and heritage attractions. The business case proposal is dependent on identifying a means of funding the maintenance and operating

costs of the Steeple facility. A financial breakdown of the costs and income is set out in the Appendix.

- In sum, FCT anticipates building maintenance, utilities and premises management costs of up to £11,410 (the amounts will depend on the commitment of maintenance works during the year). It is anticipated that £49,100 of operating costs will be required to staff and operate the building. These costs will be met through the contribution of volunteer time (estimated in cash terms at £38,900), donations and merchandising by FLHS.
- 5.5 While the Steeple is held on the Council's Common Good account, a separate council revenue budget meets ongoing maintenance and utility charges of this Category A listed asset. FCT will put in place appropriate day to day premises management requirements at a cost of £2,910 per annum. This obligation would ordinarily be required to be fulfilled by the Council if the premises remained vacant.
- Annual financial support of up to £6,410 is needed to meet the new heritage facility operating costs to enable a viable future use of the Steeple. In September 2018 Falkirk Common Good Committee approved commitment of up to £6,410 per annum over the next two years to support the proposed new use.
- 5.7 FLHS is seeking external funds to set-up, operate and take responsibility for the premises under a sublease from the Trust. They will be seeking to raise £5,000 per annum income from merchandising opportunities and donations and aim to input £3,000 per annum of existing financial society resources and contribute inkind volunteer commitment of £38,900 per annum to run the facility.
- 5.8 External funding of £26k from Falkirk Environment Trust was secured August 2018 to fund the fit-out of the interpretation spaces within the Steeple and volunteer training and development.
- 5.9 FCT will provide support to the project including guidance on set up and fundraising, a sublease with Falkirk Local History Society and ensure that the operational protocols and duty of care of the public and the assets are maintained.
- 5.10 Delivery of the Steeple History Centre assists with delivery of several policy objectives. A key objective of the Falkirk THI concerns the need to raise awareness of Falkirk town centre's extensive heritage. To date this has been successfully achieved through exhibitions and engagement with schools and the community. The suite of heritage resource materials and exhibitions produced by a partnership of the Trust, Falkirk Council, FLHS and other town centre partners will be used in the Steeple display areas. The Steeple proposal also meets FCT's objectives in its Business Plan 2017-20 in exploring ways of facilitating increased community involvement in service delivery.
- 5.11 The Steeple History Centre will add to the set of visitor attractions in the area, and its town centre location is important in attracting footfall for local businesses. The attraction of visitors to the Steeple will therefore assist with delivery of the Visitfalkirk Tourism Strategy.

6. Public Realm Update

- 6.1 Delivery of an upgraded public realm environment within Falkirk's historic town centre core is a significant objective of the Falkirk THI. Phased delivery of public realm improvement works commenced in May 2017 and these substantially concluded in July 2018. Extensive disruption occurred through the requirement to put in place street closures and traffic management plans to facilitate contract works. This impacted on retail businesses with some experiencing reduced footfall in streets where contractors were operating.
- 6.2 Retailers, residents and businesses were advised in advance of the public realm contract works. At all critical phases of the project affected parties received 1:1 visits and project correspondence. Where possible, the Council and its contractor sought to maintain service and delivery access for businesses.
- 6.3 Council officers attended meetings arranged through a 'Healthy High Streets' traders group and delivered several measures of support for businesses and their customers including:
 - car parking vouchers within the Howgate Shopping Centre and FK1 car park on Williamson Street
 - dedicated 'shop local' promotional signage and marketing in streets impacted by works
 - Working with Falkirk BID to deliver local social media promotional videos
 - Delivery of retailer and business support advice and workshops with Business Gateway advisors
 - provision of Hardship Relief information and support where retailers evidenced a marked decrease in turnover as a consequence of the works.
 - promotional features in local media, updating on works and promoting retailer and street qualities.
- 6.4 The completion of the works has been well received by local business and has assisted several to enhance their trading performance.

7. Implications

Financial

7.1 The net revenue contribution towards the reopening of the Steeple as a town centre heritage space and attraction has been identified as up to £6,410 per annum and a new budget, funded from Common Good account has been approved to provide support over the next two years

The cost of the THI public realm works totals £1.7m, with grant contributions to this scheme from Heritage Lottery Fund and Historic Environment Scotland of £660k and £878K from the Council's capital/revenue budgets.

Resources

7.2 No implications to Falkirk Council.

Legal

7.3 FCT will be required to obtain the Councils approval to the sublease established with Falkirk Local History Society.

Risk

7.4 Approval of financial assistance from the Council's Common Good account helps to resolve the risks over the future use of the Steeple facility and enables its operation as a heritage space and attraction.

Equalities

7.5 Not required in respect of this report.

Sustainability/Environmental Impact

7.6 The Falkirk THI is a heritage and conservation led project which aims to enhance the sustainability and environmental performance of town centre assets.

8. Conclusions

- 8.1 The Falkirk Townscape Heritage Initiative has delivered extensive investment into the Falkirk town centre environment at a time when high streets nationally are facing significant retailing challenges. Excluding the delivery of heritage and training initiatives, £5m of THI building projects are completed or nearing completion, with £3.6m of this amount funded by a THI grant. The Falkirk THI initiative represents one of the largest awards to a Townscape Heritage Initiative made in Scotland by the Heritage Lottery Fund and Historic Environment Scotland.
- 8.2 Significant improvements to the town centre are now materialising with the Steeple restored, key town centre historic buildings improved, new shop fronts introduced and significant public realm improvements delivered. These are receiving positive public recognition.
- 8.3 A critical Falkirk THI objective has been to raise awareness of Falkirk town centre's extensive heritage. This has been achieved by the delivery of a suite of heritage resource materials in partnership with Falkirk Local History Society, FCT, Falkirk Delivers and other town centre partners. The proposal for establishment of the Steeple History Centre helps to extend this activity beyond the life of the THI and allows this key town centre asset, an A-listed building and, for many local people, the most iconic building in Falkirk, to be developed as a heritage space providing historical information and guidance in the heart of the town centre. Bringing new uses to its interior will help to bring to life and attract tourists to this part of the town centre. It will deliver a lasting solution to the Steeple's use compatible with the aims of the THI while delivering increased community involvement in service delivery.

- 8.4 The public realm improvements to Falkirk town centre are transforming the historic core of Falkirk, delivering a significantly improved town centre environment for visitors and shoppers. Support for businesses' impacted by the disruption of these works continued for the duration of the contract.
- 8.5 The work of Falkirk THI has given the town a much needed lift. Challenges still remain but it has laid a solid foundation for the evolution and re-purposing of the town going forward as well as protecting and investing in its rich heritage and historic environment.

Subject: Business Case: Future Use of Steeple

Date: 6 November 2017

Author: Lesley O'Hare, Culture and Libraries Manager

1. Introduction

1.1 The purpose of this paper is to outline the business case for the proposed operation of the Steeple by Falkirk Local History Society (FLHS) as a local heritage space. This would form a significant legacy of the Falkirk Townscape Heritage Initiative (THI) 2013-18, of which refurbishment of the Steeple was the focal development project.

2. Background

- 2.1 The Steeple was formerly the location of Falkirk Community Trust's (the Trust) Box Office. In April 2015, the Trust felt able to withdraw these services from the Steeple given its very low usage by customers. The operational budget for the building was relinquished and contributed to the significant levels of savings that the Council required the Trust to make as part of that year's budget savings exercise. The Trust's Bookings and Sales team was successfully relocated to Falkirk Stadium from where it operates a much-expanded service delivering in-person, phone and supporting online sales of Culture and Sport tickets, courses and classes.
- 2.2 The Trust's withdrawal from the Steeple coincided with the refurbishment work on the Steeple which commenced in April 2015 and concluded earlier this year. The lease for the Steeple remains in place with the Trust, pending a decision by the Council on the appropriate and sustainable end-use for the Steeple. Work has been ongoing by the Trust and Falkirk Council since that time to determine what that use might be.
- 2.3 At their meeting of 13 February 2017, the Trust Board was sighted on initial proposals for the future use of the Steeple with the following options being considered:
 - That the Trust relinquishes its lease on the Steeple which would then be marketed by the Council as a commercial opportunity or;
 - That the Trust retains its lease and offers a sublease to FLHS to operate the Steeple as a local heritage space.

The Trust, as heritage advisor to Falkirk Council recommends that the second of the two options be pursued, subject to the consideration and approval of Falkirk Council as the building owner.

- 2.4 On 13 June 2017, the Council subsequently considered three options:
 - To market the space for lease as a commercial opportunity or;
 - For the Trust to retain its lease and put in place arrangements with FLHS to operate the Steeple as a local heritage space;
 - To keep the premises vacant while future use of the Steeple is considered pending the outcomes of the Council's Strategic Property Review.

The Council chose the second option on the basis that it would help to extend the use of the building beyond the end of the Townscape Heritage Initiative and contribute to bringing activity into the town centre. This approval was subject to the production of a business case for such a proposal.

3. Business Case Analysis

3.1 Context

- 3.1.1 A critical objective of the Falkirk THI has been to raise awareness of Falkirk town centre's extensive heritage through exhibitions and engagement with schools and the community. This has been achieved by the delivery of a suite of heritage resource materials produced by a partnership of the Trust, Falkirk Council, FLHS and other town centre partners. The proposal for the end use of the Steeple helps to extend this activity beyond the life of the THI itself and allows this critical town centre asset, an A-listed building and for many local people the most iconic building in Falkirk, to be developed as a heritage space providing additional historical information in the heart of the town centre. Bringing new uses to its buildings will help to improve life in the town centre.
- 3.1.2 The proposal meets the objectives in the Trust's Business Plan Approach 2017-20 in exploring ways of facilitating increased community involvement in service delivery.

3.2 Assumptions:

- 3.2.1 Capacity of FLHS to undertake the work: FLHS has acknowledged that undertaking the application process to bid for set-up funds, to operate out of premises, to be responsible for those premises, to keep them open to the public and to deliver the service as described in the Project Summary below, is significant escalation in their normal activity. Ian Scott, who has represented FLHS in discussions so far, has given assurances that there is a group of people within FLHS who have made a commitment to staff the Steeple facility, and that the impact of the change to their normal activity is understood. FLHS has experienced new ways of working with the public, invigilating exhibitions and developing heritage material during the course of the THI.
- **3.2.2 Capacity of the Trust to support FLHS:** in summary, the Trust's commitment to the project is twofold:
 - to provide advice and guidance to FLHS in the project set-up and fundraising stages;
 - to ensure that the terms of its sub-lease to FLHS and the requirements of an accompanying operational protocol, to include procedural agreements on duties of care to buildings, collections and public, are observed.

As a result of the significant reductions in the Trust's budget, facilitating direct community engagement is one of the two key directions of FCT's Business Planning Approach 2017-20. The present proposal is an important example of such an approach and so arrangements will be made to ensure that the work of facilitation is resourced within the Trust.

3.2.3 The Council will commit to making adequate revenue budget available to FLHS: The Council will be required to commit adequate revenue funds to this project as a result of its decision on 13 June, subject to approval of this business case; this funding will be required to cover building costs including repairs and maintenance (including statutory testing) and utilities. Full financial details are presented in 4.6 below.

3.2.4 Heritage Lottery Fund (or alternative sources) can be secured to fit out the building: an initial approach to Heritage Lottery Fund (HLF) indicates that the proposal fits with its 'Our Heritage' funding programme, subject to ensuring that access issues are covered and that provision of public engagement activity is part of the set-up programme. A bid to HLF would be more competitive if it was part of a package consisting of several sources of funding. It is anticipated that FLHS, who will lead on fundraising, will consider several options for raising funds, including other funders such as Falkirk Environment Trust (FET), crowd funding and seeking support from town centre and local businesses. As part of the larger THI project, HLF have indicated a desire to see the Steeple in active use.

3.3 Constraints

- 3.3.1 Time: it is proposed that the budget and the sub-lease for FLHS are secured and that FLHS occupies the Steeple as a clear indication to the public of the change of use and intention to develop the spaces in the building, and to aid with fundraising efforts for installation of exhibitions and dressing the spaces. It has been suggested that owing to the informal nature of volunteering, as well as the age-range of the membership, the longer-term duration of the arrangement is subject to a fixed-term review period to avoid a sense of it being in perpetuity and to enable further options to be considered if necessary.
- **3.3.2 Capacity** issues have been covered above.
- **3.3.3 Knowledge:** key knowledge requirements are as follows:
 - Heritage
 - Facilities and curatorial advice
 - Legal requirements of leasing and sub-leasing FLHS to be guided by Council legal services
 - Customer care

FLHS has significant levels of heritage knowledge about the Steeple and wider town centre; in addition, it has access to resources such as the museum and archive collections with advice and support from specialist officers in the Trust. In addition, the Trust will be able to supply advice and support relating to facilities and collections management.

3.4 Dependencies

- 3.4.1 The Trust has created a 'community engagement' group that will be enhanced from the learning derived from this project.
- 3.4.2 The implementation of this proposal coincides with the launch of the Falkirk THI final year (September 2017 September 2018). Setting the project up will be dependent on support from the same sources as those that support THI (principally HLF) and, conversely, the success of the Steeple future project will provide a strong legacy for the THI project itself and for the input of those sources.

4. Business Case

4.1 **Scope**

- Provide an effective and appropriate new use for the town's most iconic historic building
- Enable people to engage with heritage at a the town's principal gathering point
- Provide a legacy for the Falkirk THI
- Promote change which points to the revitalisation of the town centre
- To facilitate community engagement as per the direction set by FLHS's Business Plan Approach 2017-20.

4.2 Description of service

- 4.2.1 A Steeple History Centre will be operated by FLHS and provide the following:
 - Local heritage space with displays and exhibits: the building has three areas
 that can be made available to the public: the ground floor shop and the two former
 prison cells. The proposal is to use the ground floor and one of the cells to tell the
 story of the burgh of Falkirk from earliest times by means of artefacts and
 illustrative material, and for the other cell to be dressed to depict conditions for
 prisoners around 1830.
 - Resource Centre for History and Heritage. The ground floor would function as
 an information point on the town's heritage, and a sales point for heritage
 merchandise. This might provide a small income stream to support the costs of
 running the centre. The expertise and local knowledge of FLHS will be an asset in
 engaging with the public.
- 4.2.2 Further research using relevant visitor and town centre footfall trend data is required to finalise the optimum days and times for opening; however, FLHS aims to start with an opening schedule of four days per week.
- 4.3 Lease and Operational Protocol: The Trust would retain the lease for the Steeple and FLHS will negotiate a sub-lease. A separate operating protocol between the Trust and FLHS will be required to ensure indemnity needs are covered and, for collections care purposes, consideration will need to be given to insurance arrangements. The main criteria to be covered in FLHS/Trust formal agreements will include duty of care requirements such as:
 - Public liability (FHLS)
 - buildings and contents security (FHLS with advice/support from the Trust);
 - key-holding and call-out (FHLS)
 - collections care (FHLS with advice/support from the Trust)
 - public and staff health and safety (FHLS with advice/support from the Trust).
- 4.4 Management arrangements: the Trust's Heritage Engagement Officer, who is a member of the Culture and Libraries team, will act as the key contact and liaison between the Trust and FLHS. This officer will convene meetings on a regular basis to monitor and review progress against the formal agreements. The formal role of Premises Manager is yet to be confirmed.

4.5 Installation

- 4.5.1 The Trust's Heritage Engagement Officer will provide advice and support to FLHS to plan and deliver the conversion of the space, including:
 - Design
 - Contents of display
 - Use of spaces
 - Back office accommodation
 - Systems and equipment needs
- 4.5.2 Input from Eden Consultancy Group has been sought to scope out a design specification which will be included in the funding bids. Costs will be worked out and fundraising will be undertaken by FLHS.
- 4.6 Heritage Centre Opening
- 4.6.1 Completion of the fitout of the building and training and development of the volunteer cohort is dependent on external funders' timescales. A bid is being prepared to Falkirk Environment Trust (FET) for the fit out which will go to its March Board and then on to the EB Board. As such, funding will not be approved until summer at which point work will commence on design and installation of interpretation materials. It is anticipated that the building will open as a heritage centre in Autumn 2018.

4.7 Finance

As the Trust's budget for its operation of the Steeple has been withdrawn, a budget for the building no longer exists. This paper makes the case for the Council to establish a new budget to enable the re-opening of the Steeple as a local heritage space. It is worth noting that as the property is on the Council's Common Good account, this route will be considered as a means for funding any future investment. External funding from Falkirk Environment Trust and Heritage Lottery Fund is being explored to fund the fit-out of the the interpretation spaces within the Steeple and volunteer training and development.

Further staff reductions within the Trust prevent or severely limit its commitment to the project	Med	Med	Significant commitment required in early stages of project (2017-2018) and no current plans for staff reduction in this area.
FLHS are unable to supply volunteers to staff the venue	Low	High	FLHS has been working hard to secure support from membership and has demonstrated good volunteer invigilation of exhibitions through the duration of the THI
Funding is not forthcoming to fitout the venue	Low	High	Trust and independent advisors assist with development of fully scoped funding bid; indications from HLF positive

4.8 Stakeholders

- Falkirk Council
- Falkirk Community Trust
- Falkirk Local History Society
- Falkirk BID
- Town centre businesses
- Historic Environment Scotland (in its role as part funder of THI as well as carer of the historic environment)
- Heritage Lottery Fund

5. Conclusion

- **5.1** The reopening of the Steeple, as a local heritage space, run on a day-to-day basis by FLHS, achieves the following:
 - It is an appropriate legacy for the five-year THI investment in Falkirk town centre, which included the Steeple as the focal project;
 - It is a step towards changing what the town centre provides and towards extending Falkirk's tourism success into the town centre;
 - Has the potential to demonstrate the positive outcomes of community involvement in service delivery.

Answered: 113 Skipped: 44

#	RESPONSES	DATE
I	Easier parking.	10/4/2018 4:45 PM
2	More shops, too many in decline, too many premises lying empty.	10/4/2018 4:44 PM
3	More shops, less closed businesses.	10/4/2018 4:42 PM
4	Better variety of shops. We have good independent ones but it would be great to expand on them.	10/4/2018 4:39 PM
5	Too many empty shops but with the THI works this should encourage businesses to locate in Falkirk.	10/4/2018 4:37 PM
6	Rates to be cancelled until town centre is revived. Businesses in town to be consulted with business ideas to regenerate. Start talking to locals.	10/2/2018 9:21 PM
7	Would like to see all shops taking care of shopfronts and maintaining them to a high standard. Would like to see all areas kept cleaner and free of litter. Pleased to see some excellent independent shops, would prefer more of these on High Street and less charity shops and cheap, budget shops.	10/2/2018 9:16 PM
8	Re-enliven the High St, especially with the bus station closing. Help small local businesses.	10/2/2018 9:10 PM
9	More fancy lights.	10/2/2018 9:08 PM
10	Catch the litter louts.	10/2/2018 9:07 PM
11	More shops, specifically individual 'artisan' shops, not 'chain' shops. More events e.g. crafts markets.	10/2/2018 9:05 PM
12	Fill empty shops and more attractions for families.	10/2/2018 9:02 PM
13	More shops, not offices.	10/2/2018 8:57 PM
14	Fewer empty shops!	10/2/2018 8:56 PM
15	Bring back M&S! More cycle paths.	10/2/2018 8:53 PM
16	More shops.	10/2/2018 8:50 PM
17	Free parking. Rates reduction for businesses - abolished. Bring tourists to town centre. Have consultation with businesses.	10/2/2018 8:36 PM
18	More shops.	10/2/2018 8:34 PM
19	Events to encourage people in.	10/2/2018 8:31 PM
