### Comment Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: Please refer to my previous detailed objections to this development made on applications 05/0507/OUT, P/16/0063/PPP & P/17/0060/PPP, all of which are still relevant to this submission. Can you also advise why the public comments made to the applications above and this one cannot be viewed online via this tool?

Additionally, recent events surrounding Bo'ness Juniors football pitch suggest that 22 men running around a playing field may be questionable where there is a suggestion of underlying mineworks so I can't see how building a house on land with known mineworks can be considered feasible?

On further examination of supporting documents to this application it also seems the proposed 'build zone' is directly over a legacy mineshaft identified as a 'no build zone' by coal report!
