

FALKIRK COUNCIL

Subject: Local Government Benchmarking Framework 2018/19

Meeting: Scrutiny Committee
Date: 10 September 2020

Author: Director of Corporate & Housing Services

1. Purpose of Report

1.1 This report provides an update on the Local Government Benchmarking Framework (LGBF) data for 2018/19. The Improvement Service published the 2018/19 Local Government Benchmarking Framework in January 2020. This report has been delayed due to the Covid-19 pandemic.

2. Recommendations

- 2.1 It is recommended Committee:
 - (1) Approve the report and acknowledge progress by Falkirk Council in meeting Council LGBF priorities; and
 - (2) Where required, request further information on any specific aspects of the information provided.

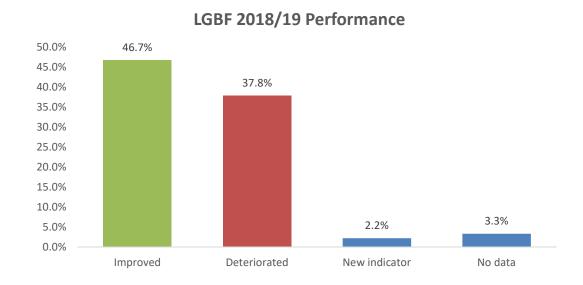

3. Background

- 3.1 The Local Government Benchmarking Framework is a national approach to preparing, comparing and improving the performance of Councils in Scotland. This replaced the previous 'Statutory Performance Indicators' required by Audit Scotland and is compiled by the Improvement Service, on behalf of the Society of Local Authority Chief Executives (SOLACE).
- 3.2 The framework consists of two key elements; a suite of common performance indicators and national family group events which look in depth at individual service areas.
- 3.3 The Accounts Commission use the LGBF indicators as a key element of the statutory performance reporting framework. The indicators are used by Auditors to review the Council's focus on improvement during annual and Best Value audits.
- 3.4 The LGBF provides Elected Members, the public, and management with comparative service performance data across Scotland. It is however, important that all Council's supplement the indicators contained within the LGBF with additional data and contextual information to reflect local priorities and concerns. This work is carried out following receipt of the overview report from the Improvement Service where deeper analysis of the data is undertaken.

3.5 The LGBF data is published on the MyLocalCouncil website, and the Falkirk Council website for public scrutiny. Additionally, earlier this year we launched the Members Portal within the Council's performance management system (Pentana) with the Important Indicators. The Important Indicators allow us to monitor progress towards the Corporate Plan and we aim to add the LGBF indicators to the portal later this year.

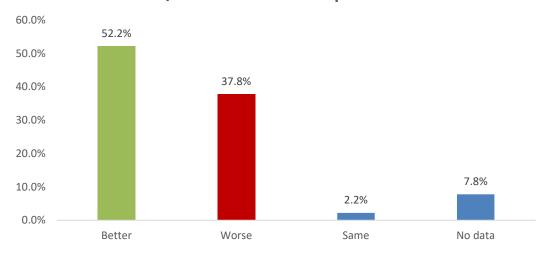

4. LGBF 2018/19 Performance Overview

- 4.1 There are 90 indicators in total. Four indicators are bi-annual and three are currently outstanding. The indicators cover service cost, service delivery and customer satisfaction. Analysis of the information is useful in terms of identifying where an increase or decrease in cost has impacted service delivery and customer satisfaction. We can also identify where there has been an improvement or deterioration in performance and compare our performance to the national average and other individual local authorities, to allow Services to undertake an appropriate course of action
- 4.2 The graph below shows the breakdown of the indicators for the Council. From 2017/18 to 2018/19 a total of 42 indicators (46.7%) improved, while performance reduced for 34 (37.8%) indicators. Details of each of the indicators can be found in Appendix 1.

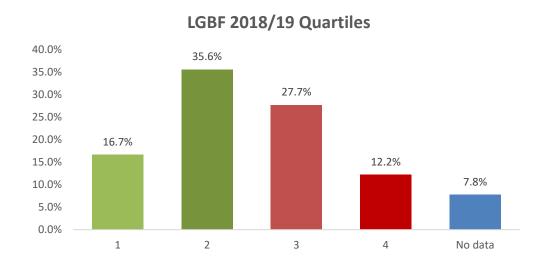

4.3 The chart below shows a comparison to the national average for 2018/19. 52.2% (47) of indicators performed better than the national average, while 37.8% (34) did not performed as well as the Scottish average. Details of each of these indicators against the national average can be found in Appendix 2.

LGBF 2018/19 Performance compared to Scotland

4.4 The chart below shows that 52.3% of indicators are within the top two quartiles and 39.9% are in the third and fourth quartiles. There are 15 indicators within the top quartile; 32 in the second quartile; 25 in the third and 11 within the fourth. Information on published indicators are detailed in Appendix 3.

5. LGBF 2018/19 and our Priorities

- 5.1 Between 2017/18 and 2018/19, Falkirk Council improved performance in several priority areas, including:
 - Improving attainment amongst all pupils and those in deprived areas,
 - The percentage of unemployed people assisted into work from Council operated/funded employability programmes,
 - % of procurement spend spent on local enterprises and town vacancy rates,
 - The percentage of Council dwellings meeting Scottish Housing Standards and quality and energy efficiency.
- 5.2 Comparing performance with Scotland, Falkirk Council performed better for the following indicators;

- Cost of waste disposal per premise (£75.66 per premise compared to £97.34),
- Household waste recycling 50.8% recycled compared to 44.7% in Scotland.
- Falkirk assisted more people into work through council employability programmes (24.26% compared to 12.59% in Scotland),
- Procurement spend on local enterprises 32.34% compared to 28.71% in Scotland
- Business gateway start-ups (19.33 compared to 16.70 per 10,000 population).
- 5.3 Between 2017/18 and 2018/19, Falkirk Council deteriorated in performance for the following indicators:
 - % of pupils living in the 20% most deprived areas gaining 5+ awards at level 5. Falkirk's performance fell by 1% from 2017/18 but is still 9% higher than the year before and is at its second highest level. It is also better than the national average.
 - Number of days people spend in hospital when they are ready to be discharged, per 1,000 populations (75+),
 - Home care costs per hour for people aged 65+, however, this is better than the national average
 - The gross cost of 'children looked after' in a community setting per child per week however, compared nationally, we have lower costs than the national average.
- 5.4 Comparing performance with Scotland, Falkirk Council had poorer performance for the following indicators;
 - % of children being looked after in the community (82.27% in Falkirk and 89.92% in Scotland,
 - Number of days people spend in hospital when they are ready to be discharged, per 1,000 population (1,178 in Falkirk, 792.66 in Scotland),
 - Investment in Economic Development & Tourism per 1,000 population (£70,419 in Falkirk, £107,387 in Scotland).
- 5.5 There are nine indicators that are ranked top 5 in Scotland, these are:
 - Cost per primary school pupil: Ranked 1st
 - Sickness Absence Days per Teacher: Ranked 1st
 - % of funded early years provision which is graded good/better: Ranked
 2nd
 - Average total tariff SIMD quintile 4: Ranked 3rd
 - Support services as a % of total gross expenditure: Ranked 3rd
 - Average total tariff SIMD quintile 1: Ranked 4th
 - % of invoices sampled that were paid within 30 days: Ranked 4th
 - Net cost of waste disposal per premise: Ranked 5th
 - % of unemployed people assisted into work from council operated / funded employability programmes: Ranked 5th

6. Benchmarking Family Groups

The Improvement Service holds annual national events for each theme.
These meetings include presentations from Council officers with examples of best practice and workshops within family groups to work through identified themes and areas of interest. Due to the Covid-19 pandemic, the events have not been scheduled and the Improvement Service are looking at alternative ways to have these discussions.

7. Consultation

7.1 There is no requirement to carry out a consultation based on the report.

8. Implications

Financial

8.1 There are no financial implications arising...

Resources

8.2 There are no resource implications arising.

Legal

8.3 There are no legal implications arising.

Rick

8.4 There are no risk implications arising.

Equalities

8.5 There are no equalities implications arising.

Sustainability/Environmental Impact

8.6 There are no sustainability or environmental impact arising.

9. Conclusions

9.1 The report provided an overview of the 2018/19 LGBF data for Members' information
