

FALKIRK COUNCIL

Subject: EXTENSION TO LOUNGE BAR AT REDDING & WEST
QUARTER UNITY CLUB, REDDING ROAD, REDDING,
FALKIRK FK2 9TX FOR REDDING & WESTQUARTER UNITY
CLUB - P/12/0588/FUL

Meeting: PLANNING COMMITTEE

Date: 27 February 2013

Author: DIRECTOR OF DEVELOPMENT SERVICES

Local Members: Ward - Lower Braes

Councillor Steven Jackson
Councillor Malcolm Nicol
Councillor Alan Nimmo

Community Council: Lower Braes

Case Officer: Kirsty Hope (Assistant Planning Officer), Ext. 4705

UPDATE REPORT FOLLOWING COMMITTEE SITE VISIT

1. Members will recall that this application was considered at the meeting of the Planning Committee on 30 January 2013 (copy of report appended), when it was agreed to continue the application for a site visit. This visit took place on Friday 15 February 2013.
2. The proposal was summarised by the case officer who advised that, despite reminders being sent to the applicant, no details of the parking layout requested by the Roads Development Unit had been submitted. Members were informed by the case officer that the applicant had submitted a Coal Mining Report on 12th February 2013. The Coal Authority had been consulted on the new information received and had responded maintaining their objection on the grounds that the information submitted is inadequate.
3. Mr Smith (Club Secretary) was heard in support of the application and advised that Network Rail have been advised with regard to the proposed ground works. Mr Nicol (Club Vice Chairman) was heard in support of the application and advised Members that a Coal Mining Report was submitted to the Council the previous week as well as Parking Layout Plans.
4. The case officer confirmed that a Mining Report had been received on Tuesday 12th February 2013 but no parking plan layout had been received.
5. A plan showing a proposed parking layout for 46 vehicles was handed to Members/case officer at the site visit on Friday 15th February 2013 by Mr Yanowicz, a club member, who was also heard in support of the application.

6. Following the site visit the Roads Development Unit has been consulted in relation to the proposed parking layout that was submitted by the applicants on site. Also, the applicants have been formally advised of the further comments received from the Coal Authority and their continued objection to the proposal. Additional information has been requested from the applicants to seek to address the concerns raised by the Coal Authority.
7. A verbal update will be provided at the Committee meeting on 27 February. On the basis that the applicants have now started to address the matters outlined in the recommended refusal reasons it is suggested that a further continuation would be appropriate to allow the applicants an opportunity to resolve these matters.

6. RECOMMENDATION

- 6.1 It is therefore recommended that the Committee continue the application to allow the applicant time to gather the requested information.

Informatives:

1. For the avoidance of doubt, the plan(s) to which this decision refer(s) bear our online reference number(s) 01, 02, 03, 04, 05, 06, 07, 08, 09, 10, 11, 12 and 13.

LIST OF BACKGROUND PAPERS

1. Falkirk Council Structure Plan
2. Falkirk Council Local Plan
3. Letter of representation received from Network Rail, Town Planning, 4th Floor, Buchanan House, 58 Port Dundas Road, Glasgow, G4 0LQ on 23 October 2012.

Any person wishing to inspect the background papers listed above should telephone Falkirk 01324 504705 and ask for Kirsty Hope, Assistant Planning Officer.

FALKIRK COUNCIL

Subject: EXTENSION TO LOUNGE BAR AT REDDING & WEST QUARTER UNITY CLUB, REDDING ROAD, REDDING, FALKIRK FK2 9TX FOR REDDING & WESTQUARTER UNITY CLUB - P/12/0588/FUL

Meeting: PLANNING COMMITTEE

Date: 30 January 2013

Author: DIRECTOR OF DEVELOPMENT SERVICES

Local Members: Ward - Lower Braes

Councillor Steven Jackson
Councillor Malcolm Nicol
Councillor Alan Nimmo

Community Council: Lower Braes

Case Officer: Kirsty Hope (Assistant Planning Officer), Ext. 4705

1. DESCRIPTION OF PROPOSAL / SITE LOCATION

- 1.1 The Unity Club is a single storey detached premises located on a wedge of land adjacent to the main railway line and below the level of the adjacent Redding Road which is located north of the site.
- 1.2 The proposed development is for the erection of a single storey extension of approximately 89 square metres to accommodate an additional lounge/bar and seating area.

2. REASON FOR COMMITTEE CONSIDERATION

- 2.1 The application has been called in by Councillor Malcolm Nicol.

3. SITE HISTORY

- 3.1 P/10/0214/FUL - Change of use of land to form outside drinking area was granted planning permission on 27th October 2010.
- 3.2 P/09/0285/FUL - Formation of External Smoking Area (Retrospective) was granted planning permission on 28th May 2009.
- 3.3 P/09/0098/FUL - Siting of Snack Van (Retrospective) was granted planning permission on 30th April 2009.

4. CONSULTATIONS

- 4.1 The Roads Development Unit has requested a total of 55 incurtilage parking spaces be provided within the confines of the site and manoeuvring space to serve the existing building and the proposed extension. No details have been received from the applicant.
- 4.2 Scottish Water has no objection to the application.
- 4.3 The Environmental Protection Unit has no objection to the proposal. It has requested that if the application is granted consent, two informatives be attached, one in relation to contaminated land and the other in relation to the hours of construction.
- 4.4 The Coal Authority has requested that the applicant submits a Coal Mining Risk Assessment Report as the site falls within the defined Coal Mining Development Referral Area. No response has been received from the applicant. The Coal Authority objects to the planning application.

5. COMMUNITY COUNCIL

- 5.1 No comments have been received from the Community Council.

6. PUBLIC REPRESENTATION

- 6.1 During consideration of the application, one letter of representation was received from Network Rail. The comments raised can be summarised as follows:-
 - Whilst Network Rail has no objection in principle to the proposal, due to its close proximity to the operational railway, construction works must be undertaken in a safe manner which does not disturb the operation of the neighbouring railway. Applicants must be aware of any embankments and supporting structures which are in close proximity to their development. The developer should contact Network Rail's Asset Protection Engineers regarding all changes in ground levels, laying of foundations and operation of mechanical plant in proximity to the rail line must be submitted to Network Rail's Asset Protection Engineer for approval prior to any works commencing on site.

7. DETAILED APPRAISAL

Under section 25 of the Town and Country Planning (Scotland) Act 1997, as amended, the determination of planning applications for local and major developments shall be made in accordance with the Development Plan unless material considerations indicate otherwise.

Accordingly,

7a The Development Plan

Falkirk Council Structure Plan

7a.1 There are no relevant policies within the Falkirk Council Structure Plan.

Falkirk Council Local Plan

7a.2 Policy SC7 - "Established Residential Areas" states:-

Within established residential areas, there will be a general presumption against the introduction of uses which would be incompatible with the residential character and amenity of the area. Proposals for appropriate community services (e.g. surgeries, day nurseries and neighbourhood shops), homeworking or other compatible business uses (e.g. guest houses) will be supported where it can be demonstrated that the quality of the residential environment would be safeguarded, the type and location of the property is suitable, and satisfactory access and parking can be provided.

7a.3 The existing social club use has been well established within this residential area. The proposed extension in terms of scale and design is considered to be in keeping with the original building. However, it has not been demonstrated that there is satisfactory parking provided within the site. The applicant has been given advice with regards to what details are required to assess the application, as well as being advised of the comments received from the Roads Development Unit; however the applicant has not made any contact or comment, despite a number of requests and reminders. It therefore has not been demonstrated by the applicant that the proposal is satisfactory in terms of access and parking provision.

7a.4 Policy SC10 - "Existing Community Facilities" states:

- (1) There will be a presumption against the loss of existing community facilities unless the Council is satisfied that there is no longer a need for the facility or an acceptable alternative facility is available; and*
- (2) The provision of new community facilities, including churches and places of worship, will generally be supported provided that:*
 - *The proposal is compatible in terms of scale, character and design with the surrounding area;*
 - * There is no adverse impact on local amenity*
 - * There is good access by public transport, on foot and by cycle; and*
 - * It complies with other Local Plan policies.*

7a.5 The proposed extensions to the property are considered to be compatible in terms of the scale and design of the proposed extension. It has not been demonstrated that there will be no adverse impact on the local amenity, as sufficient details in respect of parking requirements have not been submitted by the applicant, despite a number of requests and reminders. Therefore it has not been demonstrated that parking and access requirements can be fulfilled.

7a.6 Accordingly, the proposal does not accord with the Development Plan.

7b Material Considerations

7b.1 The material considerations in respect of this application are the consultation responses and the public representations received.

Consultation Responses

- 7b.2 The Roads Development Unit has requested a total of 55 incurtilage parking spaces be provided within the confines of the site and manoeuvring space to serve the existing building and the proposed extension. Despite several requests and reminders being sent to the applicant seeking information, the details requested have not been provided and the applicant has declined to contact officers to discuss these matters.
- 7b.3 The Coal Authority has requested that the applicant submits a Coal Mining Risk Assessment Report because the site falls within an area where their records indicate there are coal mining features and hazards which need to be considered in relation to the determination of this application; specifically likely unrecorded underground coal mining at shallow depth and the presence of a recorded mine entry. No response has been received from the applicant, despite a number of requests and reminders. The Coal Authority has therefore formally objected to the planning application.

Assessment of Public Representations

- 7b.4 The comments are noted from Network Rail given the close proximity to the operational railway. An informative could be attached to this affect if the application were to be consented.

7c Conclusion

- 7c.1 The proposal is contrary to the Development Plan and insufficient details have been provided to warrant a recommendation to grant planning permission. In the light of the concerns raised by the Roads Development Unit and the Coal Authority, the applicant has been requested to provide further information to address these outstanding issues, but despite a number of requests and reminders has not made contact with officers.

8. RECOMMENDATION

- 8.1 It is therefore recommended that planning permission be refused for the following reason(s):-

- (1) The applicant has failed to submit a Coal Mining Report as well as details of the proposed parking requirements and, as such, the proposal is therefore contrary to Policy SC 07 'Established Residential Areas' and Policy SC10 'Existing Community Facilities' within the Falkirk Council Local Plan which seek to ensure suitable parking can be provided and there will be no impact on the character of the surrounding area.

Informative(s):-

- (1) For the avoidance of doubt, the plan(s) to which this decision refer(s) bear our online reference number(s) 01, 02, 03, 04, 05, 06, 07, 08, 09, 10, 11, 12 and 13.
