

Anderson Park, Glasgow Road, Denny

The changes to be carried out at this pilot site are:

- Creation of an area of **wildflower meadow** (shown in orange) which will be cut once a year.
- Planting additional **areas of bulbs** (indicative areas shown in green)
- Maintaining the **short amenity grass** in the remainder of the site, cut between 8 and 10 times a year.

Note: These proposals have been developed in conversation with Inspire Denny and Dunipace. Further discussions will take place about the fine detail (e.g. the exact location of bulb planting).

Changes in the southern part of this site are provisional, subject to approval from the landowner.
