

## Zetland Park

### The changes to be carried out at this pilot site are:

- Creation of areas of **wildflower meadow (shown in orange)**.
- Maintenance of the remainder of the site in line with the Zetland Park Masterplan.

The areas shown in solid orange will be sown in 2021 as part of the Zetland Park Regeneration Project. The areas hatched in orange will be sown in 2022. This meadow creation will be led by the Zetland Park Regeneration team. We will however, be monitoring the success of this meadow as part of our pilot project. More information about the Zetland Park Regeneration Project is available on their Facebook page.
