

Laurie (Quarry) Park

The changes to be carried out at this pilot site are:

- Creation of areas of **naturalised grass** (shown in pink) which will be allowed to grow longer and be cut once or twice a year.
- Sowing strips of **wildflower meadow** (shown in orange) which will be cut once a year. These can be seen around the edges of the naturalised grass in the west of the park near the community hall)
- Maintaining **short amenity grass** (shown in bright green) in the remainder of the site, cut between 8 and 10 times a year. This includes mown strips between areas of long grass and any footpaths.
