Take the Right Route

Enjoy discovering over 500km of award-winning paths in the Falkirk area with the help of the Green Travel Map.

The main highlights routes which are suitable for walkers and cyclists, including cycle paths and coastal footpaths amongst others. Bus routes, railway stations and electric vehicle charging points are also shown.

Take the Right Route
Take the Right Route helps people in and around Falkirk use alternative forms of transport instead of the car. Walking, cycling or using public transport can be more enjoyable, healthier and more convenient than a car for many journeys.

For more information, please visit www.falkirk.gov.uk/ttr

2018

Walking
The Falkirk area is officially the best place to walk in the UK, winning the Ramblers Best Walking Neighbourhood Award 2018.

There are over 500km of well-signposted and maintained paths offering a quick, healthy and free way to get around the local area. You don’t need special equipment or clothing, and over 30 minutes bike rides is good for your health.

The Green Travel Map also shows the locations of publicly available bike pumps if you need them when you need and about.

Cycling
Two wheels can be quicker and cheaper than four. Cycling is one of the best ways to keep fit, and can be twice as quick as driving over short distances on cycle paths. High quality parkland, rural paths and the Round the North cycle route. There is something for everyone from the beginner to the experienced cyclist.

Public Transport
Using the bus or train offers a more relaxing and stress-free journey, and is much less polluting than driving. Plan your journey by using our interactive map and the East of Scotland travel app, or by visiting www.freescotlands.com.

Electric Vehicles
EV charging infrastructure is growing throughout Scotland and the rest of the UK. The Map shows the locations of publicly accessible EV chargers throughout the Falkirk Council area, each of which can charge two cars at the same time.

A ChargePoint Scotland account or phone app is required to access the chargers, which can also be found at www.chargepointscotland.org.
